DUBLIN CASTLE,

3rd October, 1914.

SIR,

I have to acknowledge the receipt of your letter of the 30th ultimo, forwarding, for submission to His Excellency the Lord Lieutenant, the Report on the Trade in Imports and Exports at Irish Ports for the year ended 31st December, 1913.

I am,

Sir,

Your obedient Servant,

J. B. DOUGHERTY.

The Secretary,
Department of Agriculture
and Technical Instruction,
Dublin.

REPORT ON THE TRADE

IN

IMPORTS AND EXPORTS AT IRISH PORTS

DURING THE YEAR 1913.

To the Secretary of the Department of Agriculture and Technical Instruction for Ireland.

Sir,

I have the honour to submit the Tenth Report on the Trade in Imports and Exports at Irish Ports during the year ended 31st December, 1913.

The inadequacy of the present system of returns upon which these Reports are based and the importance of this consideration has been fully dealt with in previous Reports.

Definition of Irish Imports and Exports.

In the tables and figures herewith submitted, as explained in previous Reports, Irish imports and exports mean all goods imported or exported by Ireland, whether from or to Great Britain, the Colonies, or foreign countries—the terms including not only the colonial and foreign trade, but also the Cross-Channel trade between Great Britain and Ireland. The import and export trade is thus the sum of three things: (1) the direct trade between Ireland and all other countries outside of Great Britain; (2) the indirect trade of Ireland with these same countries *via* Great Britain; and (3) the local trade between Ireland and Great Britain.

Revision of Figures published in previous Reports.

As a result of inquiries which have been carried on each year since the figures for 1904 were published, an estimate more nearly approaching accuracy can now be made regarding the values of certain classes of produce imported and exported during those years. In all such cases the figures have been revised.

It will be noticed that in Tables I. and II. the figures for Dublin are in many cases very much below the average for previous years, while for the same commodities the quantities shown under the heading "Other Ports" are on the average higher. This fact is due to the prolonged labour troubles in Dublin during the last four months of the year 1913, during which time the shipping at the port was considerably curtailed, and goods which ordinarily would have been sent *via* the port of Dublin were sent *via* Belfast, Cork, or "Other Ports."

Imports and Exports in 1913.

The total import and export trade at Irish ports in 1913 is estimated at £147,559,560 as compared with £140,349,677 in 1912, an increase of £7,209,883. The imports amounted to a total of £73,673,149 and the exports to a total of £73,886,411. The increase in the estimated value of the trade in 1913 as compared with 1912 has taken place both in imports and exports, the increase in imports amounting to £505,450, and in exports to £6,704,433. The following statement shows the total estimated values of imports and exports in the ten years 1904–1913:—

	Imports.	Exports	Total.
	£	£	£
1904	54,462,187	49,784,760	104,246,947
1905	56,153,498	51,392,547	107,546,045
1906	57,918 851	56,005,303	113,924 154
1907	62,125,928	59,159,532	121,285,460
1908	59,297,407	57,414,977	116,712,384
1909	64,231,353	60,929,183	125,160,536
1910	65,478,482	65,901,466	131,379,948
1911	66,748,536	65,086,830	131,835,366
1912	73,167,699	67,181,978	140,349,677
1913	73,673,149	73,886,411	147,559,560
1913 over 1904 ...	19,210,962	24,101,651	43,312,613
,, ,, 1905 ...	17,519,651	22,493,864	40,013,515
,, ,, 1906 ...	15,754,298	17,881,108	33,635,406
,, ,, 1907 ...	11,547,221	14,726,879	26,274,100
,, ,, 1908 ...	14,375,742	16,471,434	30,847,176
,, ,, 1909 ...	9,441,796	12,957,228	22,398,024
,, ,, 1910 ...	8,194,667	7,984,945	16,179,612
,, ,, 1911 ...	6,924,613	8,799,581	15,724,194
,, ,, 1912 ...	505,450	6,704,433	7,209,883

It will be seen that the values of imports have shown an increase each year compared with the previous year since 1904, with the exception of the year 1908, and likewise the exports have shown an increase each year, with the exception of the years 1908 and 1911.

Changes in Prices.

From these figures it will be seen that the trade in 1913 shows a great improvement on 1912, and exceeds the records of any of the preceding years. In considering, however, the increases or decreases in trade it should be borne in mind that the rise or fall in the total value is to a considerable extent due to the rise or fall in the prices of commodities. In recent years—in fact since 1896—there has been a marked upward tendency in prices, and considering in particular the period from 1904 to 1913 it appears that prices fell in 1905, rose in 1906 and 1907, fell in 1908, and increased again in 1909, 1910, 1911, 1912 and 1913. Accordingly, although the total value of the import and export trade of Ireland has increased in a most satisfactory manner since 1904, the increase in the *volume* of the trade has not been so great. This latter increase may be measured by assuming that prices have remained the same in each succeeding

year as in 1904. If prices had remained the same as in 1904 the increases in the total values of imports and exports in 1913 over the preceding years would have been :—

1913	over	1904	£18,356,481	instead of	£43,312,613
,,	,,	1905	15,531,038	,,	40,013,515
,,	,,	1906	12,540,829	,,	33,635,406
,,	,,	1907	9,933,255	,,	26,274,100
,,	,,	1908	12,964,906	,	30,847,176
,,	,,	1909	9,278,875	,,	22,398,024
,,	,,	1910	6,963,793	,,	16,179,612
,,	,,	1911	6,936,226	,,	15,724,194
,,	,,	1912	3,623,261	,,	7,209,883

If the years 1912 and 1913 are compared, the value of imports would have shown a decrease of £229,041 instead of an increase of £505,450, and the value of exports would have shown an increase of £3,852,302 instead of £6,704,433.

Re-Exports.

It will also be remembered that the figures in the tables of imports and exports include not only articles imported for home consumption but also consignments which have been returned or re-exported without going through any process of manufacture, as with the present restricted means of information it is not possible to distinguish imports or exports from what are strictly speaking returned exports or returned imports. But, as has been pointed out in previous reports, this trade is a small proportion of the total Irish trade. In the case of certain articles such as tea, coffee, sago, it is evident that the quantities exported represent re-exports, which it may be assumed have undergone no change, and are either being returned or in certain cases re-distributed. In respect of other articles, however, such as leather, apparel, machinery, etc., it is a matter of considerable difficulty to ascertain, even approximately, the proportion of (*a*) goods which are re-exports or returned goods, (*b*) goods which having been imported and having undergone some process of manufacture are then exported, and (*c*) goods which are largely or wholly the product of Irish industry. Making as careful an estimate as existing information permits it would appear that in 1913 goods to the value of approximately £3,000,000* may be taken to have been returned or re-exported without undergoing any process of manufacture. Deducting this sum from the totals of imports and exports respectively it leaves in 1913 for the purposes of Irish consumption and manufacture a net total import of approximately, £70,673,149, and a net Irish export of approximately, £70,886,411, the total Irish trade, excluding re-exports, amounting in 1913 to £141,559,560. The corresponding figure for 1912 was £134,949,677. The re-imports are small.

---

*The main articles contributing to this total figure are :—Wines, foreign and colonial spirits, guns and rifles, butter, chemicals, dyes and tanning substances, glass and glassware, maize, hops, Indian meal, rice, sago, etc. ; boots and shoes, indiarubber goods, musical instruments, machinery and hardware, oils, paints, sponges, sugar, tea, raw cotton, piece goods, haberdashery, unmanufactured tobacco. The largest re-export is raw cotton, almost all of which was shipped from Belfast, the value re-exported in 1909 being £1,243,495 ; in 1910, £904,032 ; in 1911, £917,799; in 1912, £927,867 ; and in 1913 £1,357,319.

Summary of Trade.

In order to indicate briefly the main divisions of the trade the preceding summary has been adopted, showing respectively the various classes of (I) farm produce, food and drink stuffs, (II) raw materials, and (III) manufactured goods. Any such classification has drawbacks. There are certain goods which might be placed in one class or another. Thus hides and skins, wool, flax, etc., which are farm produce, are classed under raw materials. Thus also a number of articles in the first group, *e.g.*, butter, bacon, wines, ales, spirits, tobacco, etc., have undergone varying degrees of manufacture and might be classed as manufactures. But the present division is simple, well known, and of practical interest, and with the particulars set forth in the accompanying tables it is easy to re-arrange the groups for other purposes of comparison as may be required.

These summary tables show that the percentages of the three classes which make up the total values of imports and exports were in each of the years 1909 to 1913 as follows :—

Imports.	1909	1910	1911	1912	1913
(I.) Farm Produce, Food and Drink Stuffs	38	36	36	36	35
(II.) Raw Materials	15	15	14	15	15
(III.) Manufactured Goods ..	47	49	50	49	50
Total	100	100	100	100	100

Exports.					
(I.) Farm Produce, Food and Drink Stuffs	56	54	52	52	55
(II.) Raw Materials	8	6	6	7	6
(III.) Manufactured Goods ..	36	40	42	41	39
Total	100	100	100	100	100

It will be seen from the summary tables that in the case of imports there was an increase in 1913 in raw materials and manufactured goods, while there was a decrease in Farm Produce, Food and Drink Stuffs.

In the case of exports there was an increase in each of the three divisions, but it is in the exports of live stock that the increase principally occurs.

Following the classification in the above summary attention is directed to the main groups and the articles of chief importance in them.

I.—Farm Produce, Food and Drink Stuffs.

The group of farm produce, food and drink stuffs represents an import and export amounting in 1913 to £67,005,510 out of a total of all imports and exports estimated at £147,559,560. It is important to note that a very large proportion of even the imports into Ireland consists of agricultural produce :—bacon, eggs, poultry, butter, grain, flour, food stuffs, fruit, and vegetables. And if to these articles are added flax, hides, wool, skins, etc., which are included under raw materials, the total import of farm produce alone reaches over £22,500,000, marking an increase on the preceding year in these commodities. This feature of Ireland's trade deserves close attention, as it is significant that this country with its agricultural capacity and potentiality should be annually importing so great a quantity of farm produce, much of which it is admirably suited to raise at home.

In the case of exports from Ireland, live stock, bacon and hams, butter, poultry, eggs, oats, potatoes, vegetables, and flax, etc., together with the products of the live stock industries, such as hides, skins, wool, feathers, etc., amount to a value altogether approaching £37,500,000 or nearly half the total exports of Ireland. Large as this export is, the fact is seldom realised that Ireland, while exporting annually farm produce and food stuffs to the value of over £37,000,000 is importing other food stuffs and farm commodities of a value of over £22,500,000.

The several articles belonging to the large group of farm produce food and drink stuffs are mostly simple in character, and for this reason the quantities and values in this division as also in that of raw materials represent in all probability the actual extent and value of the trade much more closely than is the case with manufactured articles.

Live Stock.

The first and still the chief agricultural export of Ireland is that of live stock amounting in 1913 to a total estimated value of £19,468,547, an increase of over £7,000,000 as compared with the export of 1912, an increase of over £6,000,000 as compared with the export in 1911, and an increase of close on £4,000,000 as compared with 1910. The increase in 1913 is mainly due to the very large numbers of store cattle which were held back from shipment during the second half of the year 1912 in consequence of the restrictions imposed on the exportation of live animals through the outbreak of foot and mouth disease, and which were exported in the early months of 1913. It will be remembered that the decrease in 1911, as compared with 1910 and previous years, was mainly caused by the great drought which prevailed in the summer of 1911. It will thus be seen that the exports of live stock—store cattle in particular—have varied very much in the last four years, and for this class of exports we have to go back to 1910 to find a normal year. The total value of the exports of cattle in 1913 is estimated at £15,464,468, as compared with £8,286,868 in 1912, £9,566,393 in 1911, and £11,453,673 in 1910. The

total number of cattle shipped in 1913 amounted to 1,109,621, which is the highest figure on record since 1878, when the published returns of the exports of animals from Ireland were first issued. The shipments of sheep and lambs increased to 659,255 in 1913, but with the exception of the years 1895, 1911 and 1912 this number is less than the number exported in any year since 1890. The number of swine exported only amounted to 200,296, which is the lowest figure on record.

The number of horses exported increased from 34,849 in 1912 to 36,643 in 1913, the increase in value being estimated at £76,220.

The following statement gives the numbers and estimated values of live stock exported in the years 1910, 1911, 1912 and 1913 :—

———	Number				Value			
	1910	1911	1912	1913	1910	1911	1912	1913
					£	£	£	£
Horses, ..	31,894	31,710	34,849	36,643	1,492,015	1,473,690	1,627,040	1,703,260

Total Sheep & Lambs	731,702	657,170	618,976	659,255	1,262,206	1,084,608	1,104,454	1,272,576
Swine, Fat, ..	301,576	323,574	253,165	187,422	1,281,698	1,294,296	1,265,825	983,966
,, Stores, ..	22,495	18,766	12,076	12,874	50,614	37,532	36,228	40,231
Total Swine, ..	324,071	342,340	265,241	200,296	1,332,312	1,331,828	1,302,053	1,024,197

Live stock imports into Ireland are very small, the total estimated value in 1913 amounting to £289,993 as compared with £232,814 in 1912. This figure, it should be remembered, includes a considerable number of horses which are temporarily imported chiefly for sporting purposes which also swell the export returns. The largest import is of sheep and lambs, of which 15,120 were imported in 1913 as compared with 11,067 in 1912, 16,824 in 1911, and 38,736 in 1910. A few breeding cattle are also imported.

Dead Meat.

The exports and imports of beef, mutton, bacon and hams, etc., form also a very important and interesting class. In 1913 the total value of these exports from Ireland was estimated at £4,880,512 while the corresponding imports amounted to £2,874,046. The exports show a decrease as compared with 1912, but are much greater than any other year since 1904, and the value of the imports is also greater than in any year since 1904. The following table shows for the years 1910 to 1913 the total quantity and the estimated total value of each main class imported and exported :—

Imports.

——	Quantities.				Values.			
	1910	1911	1912	1913	1910	1911	1912	1913
	cwts.	cwts.	cwts.	cwts.	£	£	£	£

Provisions and Groceries (*b*)	19,197	20,159	22,080	23,787	67,190	60,477	68,724	85,633

(*a*) Poultry is not included here.

(*b*) It is found that under this heading considerable quantities of bacon and hams are exported. Owing to improved returns, many of these quantities formerly returned under this heading are now definitely specified as bacon or hams.

There are many interesting points to note in this table. As regards imports it will be seen, first, that in 1913 the total value of meats imported into Ireland was greater than in any year since 1904, and that it was made up almost wholly of bacon from Canada and Denmark, pigs' heads from Denmark, beef from the Argentine, and mutton from New Zealand and Australia—all products which are capable of being raised at home ; second, that owing to higher prices, the imports of bacon and hams, amounting to £2,132,730, exceeded in value the imports of any previous year, although the total quantity imported in 1913 was almost 49,000 cwts. less than the quantity imported in 1911.

With regard to the exports from Ireland, there was a decrease in 1913 in the quantity of dead meat, as compared with 1912, but an increase compared with any previous year since 1904 ; the decrease took place chiefly in the exports of bacon and hams, amounting to 189,478 cwts., though owing to higher prices the value of these exports show a fall of only £13,970. The withdrawal of the restrictions on the movements of live stock necessitated by the outbreak of foot and mouth disease in 1912, had a direct bearing on the exports of dead meat, but it is satisfactory to note that the exports in 1913 are still considerably greater than in any year prior to 1912. It should be noted that the period of greatest export of dead meat from Ireland is from the end of October each year to the following March, at the same time as the export of live cattle is greatest. The total value of bacon and hams exported in 1913 was estimated at £4,209,104, being a decrease of £11,264. This total exceeded by £2,076,374 the estimated value of the imports of bacon and hams in 1913. If to this export is added the export of pork and coarse pig meat, the value of the products of the pig exported will amount to over £4,600,000 sterling. It is interesting thus to note that, including the export of live pigs, the total export value of pigs and pig produce in 1913 amounted to a sum of over £5,500,000 sterling.

The import of preserved and tinned meat increased in 1913 to £166,911 as compared with £149,807 in 1912, and the export of preserved and tinned meat fell from an estimated value of £35,829 in 1912 to £19,238 in 1913. Additional quantities of tinned meat are probably shipped under the name of " Provisions and Groceries."

Poultry.

The returns indicate a decrease in the export of poultry as compared with 1912. The estimated value exported in 1913 amounted to £986,241 as compared with £1,037,771 in 1912, £850,926 in 1911, £927,035 in 1910, and £857,276 in 1909. It is estimated that one-third of these values consisted of live poultry.

Eggs.

There was an increase in the quantity of eggs exported in 1913 as compared with 1912, the total quantity exported being greater than in 1909 and 1910 but less than in any of the years 1906, 1907, or 1908. The value in 1913 is greater, owing to higher average prices, than in any year since 1904, the first year for which these Reports were published.

The following statement shows the quantities and estimated values of imports and exports of eggs during the years 1904–1913 :—

Year.	Imports.		Exports.	
	Gt. Hds.	Value. £	Gt. Hds.	Value. £
1904	114,192	37,112	5,738,129	2,044,208
1905	116,380	41,218	6,194,132	2,387,322
1906	99,755	37,408	6,494,532	2,604,578
1907	103,107	41,036	6,675,599	2,781,500
1908	101,999	41,487	6,501,195	2,729,147
1909	81,891	34,805	6,362,714	2,863,221
1910	92,101	39,191	6,227,820	2,744,133
1911	97,638	43,512	6,488,776	2,940,227
1912	99,208	45,326	6,313,525	2,926,582
1913	89,858	42,140	6,398,235	3,019,167

The exports of eggs and poultry together in 1913 amounted to £4,005,408, and if to this is added the export of feathers, amounting in 1913 to £42,680, a total export of £4,048,088 is recorded. These figures do not include the value of the quantity sent by parcel post.*

The imports of poultry and eggs into Ireland are small, amounting in 1913 to £59,003 as compared with £64,890 in 1912. Thus, in estimating the value of the poultry and egg industry to the country, it should be borne in mind that practically the entire home demand is supplied by the home article, and that the export represents the surplus production of poultry and eggs. These facts bring home the great importance and value of the poultry and egg industries to Ireland. Attention is specially directed to diagram II. (see page xxxii.) which shows for the year 1913 (1) the total monthly import of eggs into the United Kingdom from foreign and colonial countries ; (2) the quantity of eggs exported from Ireland each month ; and (3) the monthly average export price of Irish eggs.

Butter.

In each of the years 1907, 1908, 1909, 1910, and 1911 there was a decrease in the quantity of butter exported as compared with the previous year. This continuous decline ceased in 1912, when a substantial increase took place, but again there was a decline in 1913, the quantity decreasing from 778,778 cwts. in 1912 to 725,368 cwts. in 1913, and the value from £4,159,972 in 1912 to £3,735,645 in 1913. The quantity exported in 1913 was greater than in any of the years 1909, 1910, and 1911, but was less than in any other year since 1904. It should be noted that the imports of butter, though trifling as compared with the exports show an increase in 1913 as compared with 1912, and with the exception of the years 1910 and 1911 are greater than in any year since 1904.

* So far as agricultural produce is concerned the parcel post trade is mainly confined to the carriage of butter, eggs, and poultry. Through the courtesy of the Postmaster-General, the Department have been informed that approximately 3,360,000 parcels are posted annually from Ireland to Great Britain that it is estimated that about 1,120,000 parcels re of butter, eggs, and poultry and that the average weight of all inland parcels is 2 lb. 10 ozs. Assuming the export of butter, eggs, and poultry by parcel post to have an average weight per parcel of 3 lbs. the export by parcel post of butter, eggs, and poultry would amount to 30,000 cwts.

The changes in the quantities and values of butter imported into and exported from Ireland during the period 1904 to 1913 may be seen from the following table :—

Year.	Imports		Exports.	
	Quantity.	Value.	Quantity.	Value.
	Cwts.	£	Cwts.	£
1904	59,053	300,924	818,252	3,666,792
1905	57,438	314,234	813,921	4,048,409
1906	60,194	350,128	844,027	4,283,437
1907	63,258	360,571	818,004	4,009,072
1908	62,918	384,287	751,942	4,026,023
1909	68,347	394,867	719,625	3,625,111
1910	77,945	477,798	698,907	3,584,810
1911	88,472	535,207	688,362	3,671,264
1912	65,731	432,555	778,778	4,159,972
1913	71,585	454,831	725,368	3,735,645

As in the case of eggs, these figures do not include quantities sent by parcel post. There is also difficulty in obtaining a record of small consignments of butter under 28 lbs. as these are frequently entered in the returns as "parcels" or "sundries." Attention is directed to diagram I. (see page xxxii.) which shows for the year 1913 (1) the imports of butter into the United Kingdom from the Colonies and foreign countries; (2) the quantity of butter exported each month from Ireland; and (3) the average monthly export price of Irish creamery butter.

Margarine.

The quantity of margarine imported in 1913 amounted to 83,807 cwts., valued at £215,803, as compared with 75,470 cwts., valued at £196,222 in 1912. The exports of margarine amounted to an estimated value of £149,584 in 1913 as compared with £165,721 in 1912.

Cheese.

The returns showed an increase in the imports of cheese; the quantity imported in 1913 amounting to 45,157 cwts., valued at £137,729, as compared with 42,986 cwts., valued at £137,555 in 1912, 46,573 cwts., valued at £142,048, in 1911; 43,560 cwts., valued at £120,879, in 1910, and 42,611 cwts., valued at £121,441 in 1909. There was a decrease in the export of cheese, the quantity exported in 1913 amounting to 6,372 cwts., valued at £19,435, as compared with 10,260 cwts., valued at £22,733 in 1912; 6,031 cwts., valued at £18,395 in 1911; 3,365 cwts., valued at £9,338 in 1910, and 4,015 cwts., valued at £11,443 in 1909.

It should be noted that the 10,260 cwts. of cheese returned as exported in 1912 included 4,810 cwts. of casein, whereas the exports in 1913, viz., 6,372 cwts., included only 270 cwts. of casein. This accounts for the comparatively lower value of the exports in 1912.

Fish

There was a considerable decrease in the export of fish from Ireland in 1913, the total value of fish, including shell-fish, exported being estimated at £388,028 in 1913, as compared with £482,698 in 1912, £600,058 in 1911, £539,730 in 1910, and £607,294 in 1909. The decrease was chiefly in the export of cured herrings, shipped mainly from Londonderry and Downings; the quantity of cured mackerel also showing a decrease. On the other hand the value of fish, including shell-fish, imported in 1913 was estimated at £325,674, as compared with £302,798 in 1912; £319,076 in 1911; £326,608 in 1910, and £333,116 in 1909.

Grain and Vegetable Produce.

In the summary tables on pp. viii. and ix., grain and other foods intended for human consumption have, as far as possible, been distinguished from the feeding-stuffs for animals, as it is important to see the respective amounts of these two kinds of imports. In several cases, however, the imports may be, as in the case of oats or of Indian meal, partly for human consumption and partly for cattle feeding, and therefore this division can only indicate broadly the extent of the two classes of imports.

Wheat and Flour.

Much the largest import among the grain foods for human consumption is wheat and wheat flour. The quantities and estimated values imported into Ireland respectively in each of the years 1904 to 1913 were as follows:—

—	Wheat Imports.		Wheat Flour Imports.	
	Quantity.	Value.	Quantity.	Value.
	Cwts.	£	Cwts.	£
1904	6,932,956	2,599,857	5,529,278	2,764,639
1905	7,502,728	2,907,307	5,596,214	2,798,107
1906	6,927,827	2,439,172	5,399,355	2,521,187
1907	7,147,511	2,829,223	5,261,607	2,652,726
1908	6,764,866	2,931,442	4,697,156	2,563,865
1909	8,233,011	3,979,289	4,513,657	2,595,353
1910	7,997,988	3,532,445	4,602,990	2,685,078
1911	7,839,093	3,233,626	5,001,058	2,625,555
1912	7,471,974	3,300,122	4,775,622	2,586,795
1913	7,849,871	3,368,903	4,968,282	2,629,049

From these figures it appears that the quantity of wheat imported in 1913 was less than in 1909 or 1910, but greater than in any other year since 1904; the value of the imports in 1913 was estimated at £3,368,903. The imports of wheat flour showed an increase in quantity and value in 1913; but while the total quantity marked a decrease compared with 1911, the value of the imports of wheat flour in 1913 exceeded by £3,494 the value of the imports in 1911. In the agricultural statistics of Ireland the amount of Irish-grown wheat in 1913 was estimated at 693,887 cwts., and if it is assumed that one and a-half tons of wheat produce one ton of flour, the total quantity of flour represented by imports of wheat and flour and by home-grown wheat amounted to 10,664,121 cwts. From this quantity has to be deducted an export of flour, or its equivalent in wheat, amounting to 253,444 cwts., leaving thus a residue of 10,410,677 cwts. for consumption in Ireland.

Oats and Oatmeal.

In the case of oats the imports amounted to 338,109 cwts. in 1913, as compared with 545,066 cwts. in 1912; 335,026 cwts. in 1911; 452,597 cwts. in 1910, and 583,372 cwts. in 1909, while the exports amounted to 1,475,509 cwts. in 1913, as compared with 1,180,033 cwts. in 1912; 1,358,563 cwts. in 1911; 1,175,241 cwts. in 1910, and 1,249,172 cwts. in 1909. The imports of oatmeal fell to 163,826 cwts. in 1913, as compared with 164,651 cwts. in 1912; 172,909 cwts. in 1911; 169,358 cwts. in 1910, and 134,748 cwts. in 1909; the exports amounted to 124,815 cwts. in 1913, as compared with 106,476 cwts. in 1912; 111,397 cwts. in 1911; 146,526 cwts. in 1910, and 164,998 cwts. in 1909. But, as was pointed out in previous Reports, in considering the imports of oatmeal, allowance must be made for a quantity of what is returned as "meal," one-third of which is estimated to be oatmeal or similar meals for human consumption, the remaining two-thirds of these unclassified meals being cattle meals. The quantities of "unclassified" meals in the imports which fell from 193,590 cwts. in 1909 to 134,986 cwts. in 1910, rose to 185,547 cwts, in 1911, to 220,189 cwts. in 1912, but showed a slight decrease to 211,158 cwts. in 1913.

Barley and Malt.

The quantity of barley imported in 1913 amounted to 1,521,715 cwts., as compared with 1,162,584 cwts. in 1912; 1,152,323 cwts. in 1911; 989,804 cwts. in 1910; and 1,216,627 cwts. in 1909. The exports of barley showed a decrease, the shipments amounting to 90,500 cwts. in 1913; as compared with 101,787 cwts. in 1912; 150,499 cwts. in 1911; 20,515 cwts. in 1910; and 211,891 cwts. in 1909. The exports of malt fell to 64,216 cwts. in 1913; as compared with 74,111 cwts. in 1912; 76,890 cwts. in 1911; 72,892 cwts. in 1910; and 161,045 cwts. in 1909. The imports of malt amounted to 746,069 cwts. in 1913; as compared with 878,642 cwts. in 1912; 830,597 cwts. in 1911; 735,196 cwts. in 1910; and 652,872 cwts. in 1909.

Cattle Feeding Stuffs, Maize, etc.

Among cattle feeding stuffs the chief import is maize, a very great quantity of which is annually imported into Ireland. A considerable quantity, however, is each year re-exported—in 1913 to the value of £223,405. The following are the total quantities and values of maize imported in each of the years 1904 to 1913:—

—	Quantity.	Value.
	Cwts.	£
1904	13,251,493	3,147,229
1905	11,268,018	2,957,854
1906	13,404,190	3,295,197
1907	15,147,026	4,133,876
1908	10,924,929	3,368,520
1909	12,527,450	3,862,630
1910	11,435,688	3,168,639
1911	11,927,375	3,304,877
1912	13,582,134	4,244,417
1913	14,880,194	4,154,054

Together with the above import of maize, the imports of bran, pollard, and the various classes of cattle meals, brought the total value of feeding stuffs imported in 1913 to a sum estimated at £5,422,110 as compared with £5,637,012 in 1912 ; £4,443,251 in 1911 ; £4,284,055 in 1910 ; and £5,007,091 in 1909.

Fruit and Preserves.

The imports of fruit into Ireland are considerable, being estimated at £824,518 in 1913 as compared with £800,144 in 1912 ; £797,316 in 1911 ; £806,073 in 1910 ; and £778,948 in 1909. The exports of fruit are comparatively small, but the returns do not adequately represent the extent of the trade.

In the case of jams and preserves the imports amounted in value to £228,413 in 1913 as compared with £225,053 in 1912 ; £206,879 in 1911 ; £177,177 in 1910 ; and £172,339 in 1909. The exports amounted in value to £80,954 in 1913 as compared with £91,757 in 1912 ; £82,514 in 1911 ; £75,230 in 1910 ; and £61,879 in 1909.

Vegetables.

Among vegetables the largest import is that of onions, of which 281,253 cwts. were imported in 1913 as compared with 275,001 cwts. in 1912 ; 239,187 cwts. in 1911 ; 241,439 cwts. in 1910, and 219,706 cwts. in 1909. The chief export of vegetables is that of potatoes, of which 124,020 tons were exported in 1913, valued at £472,826, as compared with 171,131 tons in 1912, valued at £513,393 ; 183,230 tons in 1911, valued at £641,305 ; 119,870 tons in 1910, valued at £389,578, and 119,785 tons in 1909, valued at £341,886.

Tea, Coffee, and Sugar.

There was a decrease in the quantity of tea and an increase in the quantity of sugar imported in 1913. The quantity of tea imported was returned as 32,663,344 lbs in 1913 as compared with 33,874,960 lbs. in 1912 ; 33,047,616 lbs. in 1911 ; 34,024,592 lbs. in 1910, and 34,334,832 lbs. in 1909. The quantity of coffee imported showed an increase, being returned at 1,476,048 lbs. in 1913 as compared with 1,216,544 lbs. in 1912 ; 1,258,320 lbs. in 1911 ; 1,206,464 lbs. in 1910, and 1,274,784 lbs. in 1909. The quantity of sugar imported was 2,836,928 cwts. in 1913 as compared with 2,785,793 cwts. in 1912 ; 2,721,965 cwts. in 1911 ; 2,800,988 cwts. in 1910, and 2,857,832 cwts. in 1909. The quantities of tea, coffee, and sugar mentioned here are gross weights.

Tobacco.

There was a big decrease in the quantity of unmanufactured tobacco imported into Ireland in 1913 as compared with previous years, while the quantity of manufactured tobacco imported showed an increase. The figures published for unmanufactured tobacco imported and exported have been kindly furnished by the Customs and Excise Department, who guarantee their accuracy ; the figures for manufactured tobacco are those returned by portal authorities, railway and shipping companies, etc., who furnish the returns to this Department.

The following table shows the total quantities of the imports and exports of unmanufactured and manufactured tobacco during each of the years 1909 to 1913 :—

—	Imports.		Exports.	
	Unmanufactured.	Manufactured.	Unmanufactured.	Manufactured.
	Lbs.	Lbs.	Lbs.	Lbs.
1909 ..	12,977,483	2,860,284	1,875,530	7,292,891
1910 ..	14,183,918	3,189,312	1,907,503	7,550,598
1911 ..	13,931,626	3,155,712	2,307,170	7,744,710
1912 ..	15,884,015	4,031,496	1,921,241	8,208,810
1913 ..	9,234,752	4,687,116	1,745,023	8,098,378

Spirits, Ales, Wines, etc.

The total estimated value of spirits, ales, wines, etc., imported, showed an increase from £1,118,223 in 1909, to £1,171,339 in 1910, and £1,255,683 in 1911, fell in 1912 to £1,187,365, and in 1913 increased to £1,234,559 The imports of British spirits increased from a value of £43,828 in 1912 to £52,245 in 1913 ; foreign spirits rose from £97,293 in 1912 to £108,608 in 1913, and ale and beer from £504,176 in 1912 to £560,196 in 1913. The total estimated value of spirits, stout, porter, etc., exported amounted to £4,655,957 in 1913, as compared with £4,439,594 in 1912 ; £4,379,767 in 1911 ; £4,251,120 in 1910 ; and £3,731,495 in 1909. The value of home-made spirits, which increased from £1,739,979 in 1909, to £2,045,300 in 1910, and to £2,050,199 in 1911, fell in 1912 to £1,960,136, but marked a slight increase to £2,008,500 in 1913. The value is still below that of any year since 1904, with the exception of 1909 and 1912. The value of stout and porter exported was estimated at £2,269,340 in 1913, as compared with £2,098,664 in 1912, £1,926,562 in 1911, £1,838,397 in 1910, and £1,653,113 in 1909. The export of aerated waters was estimated at £265,812 in 1913, as compared with £254,325 in 1912, £277,179 in 1911, £239,110 in 1910, and £230,016 in 1909.

Sundry Food-Stuffs ; Biscuits, Confectionery.

Among sundry food stuffs, the chief items are biscuits and confectionery. The value of the imports of biscuits in 1913 was estimated at £134,024 as compared with £129,369 in 1912 ; £117,415 in 1911 ; £106,707 in 1910, and £100,080 in 1909. The value of the exports of biscuits is much larger than the imports, and has shown a steady increase from £388,724 in 1909 to £487,157 in 1910 ; £507,777 in 1911 ; and £534,911 in 1912, but fell in 1913 to a value of £455,039. In the returns under the head of confectionery the value of the imports is much greater than the exports, and increased from £392,582 in 1909 to £466,155 in 1910, £510,180 in 1911 ; fell in 1912 to £442,563 ; and again shows an increase over the previous year, being estimated in 1913 at a value of £471,925. The value of the exports of confectionery in 1913 was estimated at £102,352, as compared with £97,181 in 1912, £125,317 in 1911, £121,792 in 1910, and £102,489 in 1909.

Imports of Agricultural Produce from Colonial and Foreign Countries.

In order to furnish the means for comparing the exports of agricultural produce from Ireland with the imports of similar products from colonial and foreign countries into the United Kingdom, a table is presented as Appendix II. showing for the year 1913 the quantities and values of the chief articles of agricultural and horticultural produce imported into the United Kingdom* from British possessions and foreign countries and the corresponding quantities exported from Ireland to Great Britain.

This table will bring home to Irish producers and exporters the extent of the existing market in Great Britain, and the present strength in that market of the several competitors, while at the same time it shows the very important position which Ireland at present holds in the British market.

Thus in 1913 :—

(1) The value of cattle and beef exported from Ireland to Great Britain in 1913 and previous years, with the exception of 1912, was greater than the value imported into the United Kingdom from any country. In 1912, however, the value of the export from Ireland, which was £8,500,000, was smaller than the import from Argentina, which amounted to £11,500,000 ; but in 1913 the Irish export amounted to a value of £15,500,000, compared with an import from Argentina valued at £12,800,000. Australia, with a value of £2,100,000, came next in order of magnitude.

(2) The Irish export of sheep and mutton, valued in 1913 at £1,270,000, was the fourth greatest, being exceeded by the imports from New Zealand £4,965,000, Australia £3,128,000, and Argentina £1,908,000,

(3) As regards the total value of bacon, hams, pork, and live pigs, Ireland comes third on the list with a value amounting to £5,427,000 as compared with £8,885,000 from Denmark and £8,872,000 from the United States of America. The imports from the Netherlands came fourth with a value of only £1,900,000.

---

*At present (excepting certain specified articles) the quantities and values of foreign and colonial goods imported are known for the United Kingdom only Nothing beyond an estimate can be formed as to how far these goods are imports for consumption in Great Britain and how far for consumption in Ireland. For though the import of goods from Great Britain to Ireland is known, it cannot be said how far these goods are foreign or colonial and how far they are British produce. Thus in the case of butter, bacon, and eggs, it is known that the imports from Great Britain into Ireland are of foreign or colonial origin, and a close estimate could therefore be made of the net import of these commodities from colonial and foreign countries for consumption in Great Britain and in Ireland respectively. But in the case, for example, of flour much of the very large import from Great Britain into Ireland may be foreign, or it may be British milled flour made from foreign or from British wheat, and with most of the other articles the question is even more difficult. At present, therefore, it is not possible to show the foreign and colonial imports into Great Britain alone, or to furnish an exact comparison between the imports into Great Britain of Irish produce and colonial and foreign produce respectively.

(4) The export of poultry from Ireland was much greater than that from any other country into the United Kingdom, Ireland exporting to Great Britain poultry to the value of £986,241, while the values of the highest imports from other countries to the United Kingdom were—from Russia, £344,665; United States, £211,429, and France, £158,698.

(5) The Irish export of butter, value £3,735,645, to Great Britain was the third largest in quantity and value; the export from Denmark into the United Kingdom being first, value £10,681,383, and that from Russia second, value £3,831,366.

(6) The Irish export of eggs was second largest in total quantity and value, amounting to 6,398,235 gt. hnds., valued at £3,019,167, the imports into the United Kingdom from Russia being the largest, amounting to 11,453,277 gt. hnds., valued at £4,745,229.

(7) The Irish export of potatoes, which amounted to 124,020 tons, was the second largest quantity imported into Great Britain, the export from the Netherlands, 141,504 tons, valued at £531,061, being the greatest. The next largest quantities were imported from Germany, France, and the Channel Islands. The quantity imported from the Channel Islands amounted to only 55,047 tons, but as their trade is chiefly in early potatoes, the value was greater than that of the export from the Netherlands.

(8) As regards oats, the export from Ireland was fifth, Argentina, Germany, Russia, and Canada being the largest exporters to the United Kingdom.

The above cases are sufficient proof of the very strong position which Ireland holds in the markets of Great Britain, and as these are the great open markets of the world for agricultural produce, the figures bring out plainly the wide and representative character of Irish agricultural exports.* This consideration should, therefore, be kept in mind when comparisons are made between the export of particular commodities from Ireland and the corresponding export from any other country, such as the butter export of Denmark and that of Ireland. Thus, in the case of Denmark, which is frequently compared with Ireland, the total exports of home produce and manufacture to all countries in 1913 amounted to £35,331,300† of which £30,935,795 consisted of agricultural produce. The chief articles of export were butter, £11,124,387; pig produce, £9,015,487; eggs, £1,830,872; horses and foals, £1,072,393; cattle, £2,637,347. Over three-fourths of the Danish agricultural exports are sent to the United Kingdom. These figures present interesting contrasts with the present

---

*Irish export values are f.o.b., and thus do not include cost of transit from Irish Ports to British market centres; whereas foreign and Colonial imports are c.i.f., and thus include transit costs. This difference makes the total foreign values, *e.g.*, of eggs, butter, etc., appear somewhat higher relatively to the Irish than they actually are.

†This and the following figures in this paragraph are taken from the Danish Official Statistics, and are f.o.b. They are, therefore, more strictly comparable with the values of the Irish exports.

Irish agricultural exports, and bring into relief the more highly diversified interests which Ireland has as a country of production and export. Apart from Denmark, it is noteworthy that the country which is and promises to be the most serious competitor with Ireland in the British market, as regards the important articles of butter, eggs, and poultry, is Russia, the export from that country in 1913 amounting to, in butter, 751,414 cwts., valued at £3,831,366; eggs, 11,453,277 gt. hnds., valued at £4,745,229; and in poultry, a value of £344,665.

II. Raw Materials.

For the purposes of the broad classification adopted in the summary tables, pp. viii. and ix., raw materials include coal, coke, rough and sawn timber, boards and deals, stones, slates, sand, clay, metal ores and other mineral substances, hides, skins, horns and hoofs, wool, bristles, feathers, flax, raw cotton, hemp, jute, tow, waste, seeds, plants and bulbs, ice, &c. The total value of raw materials imported into Ireland in 1913 was estimated approximately at £11,168,847, as compared with £10,777,483 in 1912. The imports consist mainly of coal, wood, flax and other raw materials of the textile industries. There is also a large import of raw cotton, which is re-exported to Northern Europe.

The exports in 1913 were estimated at a value of £4,511,104, as compared with £4,468,459, in 1912. Excluding the re-export of raw cotton, these consist mainly of animal produce, such as hides, skins, wool, fats, &c., and, to a lesser extent, of seeds, timber, and other vegetable produce. The item raw cotton, which has been referred to above, while it must be accounted for in a record of Irish trade, is neither an import for home consumption nor an export of domestic produce, neither is it worked up in any way in Ireland, it is merely transhipped. Although on both the import and export side of the account there appears to be an increase in the total value of raw materials, yet when the item raw cotton is eliminated, it is found that the increase of £391,364 in the imports is reduced to £155,053, and the increase of £42,645 in exports is converted into a decrease of £386,807.

The estimated values of the chief imports of raw materials in each of the years 1909 to 1913 were as follows:—

Imports.

——	1909.	1910.	1911.	1912.	1913.
	£	£	£	£	£
Coal, ...	2,577,398	2,778,044	2,770,064	2,990,068	3,269,344
Slates, ...	144,898	139,904	120,574	120,322	101,436
Timber, ...	1,360,665	1,841,204	1,735,953	1,937,159	1,986,025
Flax, ...	1,912,667	1,867,372	1,955,355	2,416,958	2,300,115
Hemp and Jute, Tow and Codilla, ..	522,847	554,369	550,731	657,456	710,268
Lard, Tallow, &c. ..	471,265	376,051	269,996	197,585	216,744

The values of the chief exports in the same years were :—

EXPORTS.

——	1909.	1910.	1911.	1912.	1913.
	£	£	£	£	£
Timber	245,022	240,851	251,452	259,131	235,920
Hides and Skins, ..	614,106	610,622	596,577	700,564	736,537
Wool, ...	747,320	631,197	575,173	773,220	511,566
Lard, Tallow, &c., ..	625,978	507,980	412,028	415,008	379,402
Grass Seed, ...	403,070	371,570	371,388	333,094	251,151

In connection with the above figures it should be stated that the imports of wood and timber, estimated in 1913 at a value of £1,986,025, consist mainly of sawn timber, boards and deals, whereas 90 per cent. of the exported timber is shipped out of the country in the round or rough state—an uneconomic condition of affairs. The large export likewise, of hides and skins, amounting in 1913 to £736,537, should be compared with the imports of leather and leather goods, boots, shoes, saddlery, &c., which approximate a value of £2,300,000 of goods imported. Again, there is a very great export of wool, which amounted in 1913 to 10,231,312 lbs., of an estimated value of £511,566, but which shows a decrease of over 42 per cent. compared with the previous year. It is estimated that over three-fourths of the total wool clip in Ireland is exported, and, while the output of the woollen industries in Ireland is also rising, the imports of woollen goods remain largely in excess of exports. Thus it is not simply in one branch, but in several—in wood, hides and skins, wool, as well as in various minor exports, such as feathers, kelp, and most of all in her store cattle—that Ireland is exporting the raw materials of industry.

III. MANUFACTURED ARTICLES.

The third division of Irish imports and exports is that of manufactured goods. In 1913 these represented an import the total value of which is estimated at, approximately, £36,500,000, or 50 per cent. of the total value of imports. The export of manufactured goods was estimated, approximately, at £28,000,000, or about 39 per cent. of the value of the total export. In both imports and exports there was an increase in the estimated value of manufactured goods, the increase in imports amounting to £376,000 and in exports to £239,000.

To a greater extent than in the case of the imports and exports of either agricultural produce or raw materials the figures indicating the value of manufactured articles must be taken as only approximate in character. For while the existing returns indicate the actual gross weight and quantity of manufactured articles imported and exported, there is great difficulty in determining what is the quality and value of these goods, especially in the case of the more highly differentiated articles. So far as is at present possible the estimated values have been checked by means of wide and careful inquiries

among importers and exporters, through whose courtesy in many cases exact data regarding the gross weight and value of representative consignments of goods have been obtained; but it cannot be too plainly said that until import and export returns are available, which specify the nature, quantity, and value of goods, any figures put forward with regard to the import and export value of manufactured articles can only be regarded as approximate in character. At the same time it should be clearly understood that the present returns are not arbitrary statements, that they are based on actual figures of weights of goods imported and exported, and on careful inquiries regarding value, and that they furnish as close an estimate as is at present possible of the extent and character of this class of Irish trade.

As there is a wide range of manufactured imports and exports, these have been divided, as in the previous Reports, into a number of main groups.

Textiles.

The first and largest group is that of the textiles. The combined imports and exports of manufactured textile goods amounted to a value estimated in 1913 at £40,426,315 as compared with £39,330,839 in 1912, £35,441,442 in 1911, £35,821,255 in 1910, and £32,239,308 in 1909, a sum almost five-eighths of the total value of manufactured imports and exports of Ireland, and which is a little over a third of the total estimated value of all goods imported and exported to or from Ireland in the year 1913. This fact alone indicates the great importance of the textile group of manufactured goods. The combined textile imports—yarns, piece goods, and made-up goods—amounted in 1913 to an estimated value of £18,361,838, as compared with £17,664,999, in 1912, £15,684,490 in 1911, £15,730,952 in 1910, and £14,793,765 in 1909, while the corresponding textile exports showed an estimated value of £22,064,477 in 1913, £21,605,840 in 1912, £19,756,952 in 1911, £20,090,303 in 1910, and £17,445,543 in 1909.

Yarns, Thread, Rope, etc.

Distinguishing yarns, thread, rope, cordage, &c., from piece goods and made-up goods, the value of the imports of the former was in 1913 estimated at £2,090,911 as compared with £2,475,838 in 1912, £1,986,452 in 1911, £1,882,847 in 1910, and £2,265,312 in 1909. In this amount the chief items were cotton yarn £636,208; linen yarn, £706,460; woollen yarn, £228,254; and yarns unclassified (which inquiry shows to contain a large amount of woollen yarn), £159,052. There was also an import of thread, estimated at a value of £191,834. The value of the corresponding exports of yarn, thread, rope, twine, cordage, &c., was estimated in 1913 at £3,023,093 as compared with £2,775,316 in 1912, £2,735,387 in 1911, £2,645,990 in 1910, and £2,160,556 in 1909. Of this amount the main items were—linen yarn, £1,732,691; thread, £562,882; rope, cordage, and twine, £553,141.

Piece Goods, Drapery, etc.

Much the largest part, however, both of textile imports and exports consists of piece goods, ready-made goods, drapery, and apparel. The imports of these were estimated in 1913 at a value of £16,270,927 as compared with £15,189,161 in 1912, £13,698,038 in 1911, £13,848,105 in 1910, and £12,528,453 in 1909, and the exports at a value of £19,041,384 in 1913, as compared with £18,830,524 in 1912, £17,021,565 in 1911, and £17,444,313 in 1910.

The imports of piece goods, drapery, apparel, &c., are of a much more wide and varied character than the exports. The largest import is of drapery and apparel, the combined value of which was estimated at £7,432,987 in 1913 as compared with £6,579,828 in 1912, £5,577,614 in 1911, £5,860,083 in 1910, and £5,653,474 in 1909. The import of cotton goods was less than in 1912, and was estimated at a value of £5,168,473 as compared with £5,278,043 in 1912, £4,688,668 in 1911, £4,657,439 in 1910, and £3,980,367 in 1909. The imports of woollen goods, including blankets and carpets, were estimated at £1,451,690 in 1913, as compared with £1,276,743 in 1912, £1,390,203 in 1911, £1,364,155 in 1910, and £1,182,830 in 1909. Altogether, apart from drapery and apparel, the quantities of cotton, linen, woollen, and silk goods imported in 1913 were estimated to amount to a sum of, approximately, £8,148,000. In the case of cotton goods imported, a considerable quantity is imported for purposes of further manufacture, and is then re-exported. In addition to these classes of finer textile fabrics, there are large imports of coarser stuffs, such as bags and bagging, oilcloth and canvas goods.

In the case of exports, the outstanding feature is the fact that three-fourths of the textile piece goods exported are returned as "linens," but this term in the returns of the portal authorities has a wide significance, and includes "unions" and goods which have only a linen "finish." The estimated value of exports of linen goods amounted to £14,112,918 in 1913, as compared with £14,005,636 in 1912, £12,584,884 in 1911, £13,342,998 in 1910, and £11,996,663 in 1909. The returns show a decrease in the value of the exports of woollen goods from £690,557 in 1912, to £629,344 in 1913, and imports are still largely in excess of exports. The total value of the exports of piece and made-up textile goods was estimated in 1913 at £19,041,384.

Hides, Skins, Leather, Boots and Shoes.

The second group is that of leather and leather manufactures. Attention has already been drawn to the very large export of hides and skins, and the still greater import of leather, saddlery, boots and shoes. The exports of hides and skins in 1913, apart from the hides and skins of the live stock exported, amounted to an estimated value of £736,537, as compared with £700,564 in 1912. On the other hand, the import of leather was of a value estimated in 1913 at £565,090, as compared with £590,686 in 1912, £507,229 in 1911, £462,586 in 1910, and £599,321 in 1909,

and the imports of boots and shoes were of a value estimated at £1,673,998 in 1913, as compared with £1,714,302 in 1912, £1,734,192 in 1911, £1,884,317 in 1910, and £1,791,908 in 1909. In addition to these sums there are the imports of saddlery, of leather belting, and of an item which is considerable but which cannot be ascertained from the existing returns, leather and kid gloves. Thus the total imports of leather and of leather manufactures in 1913 may be estimated at, approximately, £2,300,000.

Large quantities of india-rubber goods are also imported, but it is very difficult to determine the extent and value of this import. The value was estimated at £459,579 in 1913, as compared with £421,796 in 1912, £387,473 in 1911, £343,985 in 1910, and £340,885 in 1909.

Metal and Metal Manufactures.

The third group is that of metals and metal articles, machinery, ships, &c. This group is a very wide class, and in gross annual value is next in importance to the textiles. It is estimated that in 1913 the total value of the imports of metals and metal manufactures reached almost £8,400,000, while the exports, which include the export of steam vessels, were estimated at £4,657,620. Among the metal imports, approximately, £2,373,000 consisted of steel, bar and wrought iron, and plates and sheets, imported chiefly into Belfast, while anchors and chains, bolts, rivets, nails and screws, rails, iron chairs, and other railway plant, represent a further import estimated at, approximately, £392,000. Thus the more simple articles of iron and steel manufactures represent a total import in 1913 of £3,248,500. Of the other metals, the import of copper was estimated in 1913 at £132,430; lead and lead piping at £84,711; brass and bronze at £53,040. With regard to the more highly manufactured classes of goods, the returns show very large imports of hardware utensils and implements, as well as of the heavier iron goods, such as ranges, stoves, meters, pumps, boilers and cylinders. The total value of these and similar articles in 1913 was estimated at £1,854,589. In addition, there are imports of machinery, chiefly agricultural and textile, and railway engines, estimated at £1,448,160, and of cycles and motor cars, estimated at £758,800.

As regards exports, considerable quantities of machinery are shipped from Belfast, while the export of steam vessels is of a very large annual value, estimated in 1913 at, approximately, £3,148,000, a decrease of over £200,000 compared with the previous year. Thus there are large individual exports in this class, but as a whole the trade in hardware and metal goods and manufactures stands in contrast to the textile trade. For whereas the value of the textile exports appears even greater than that of the imports there is a very large surplus of metals and metal manufactures imported over what is exported.

Wooden Manufactures.

Of wooden manufactures also there is a very large import and only a small export. The item of greatest importance among the imports is furniture, though there is a difficulty in distinguishing removals of private furniture from what are genuine trade imports and exports. But, taking the total import and total export figures of furniture, the imports exceed in value the exports by a balance of close on £280,000 as compared with £340,000 in 1912. There is also a wide range of other classes of imported articles wholly or partly of wooden manufacture.

Paper and Cardboard, etc.

There is a very large annual import into Ireland of paper, stationery, cardboard, books and printed matter, estimated for the year 1913 at a total value of £1,161,176 as compared with £1,205,283 in 1912, £1,155,603 in 1911, £1,107,618 in 1910, and £1,085,401 in 1909. The estimated value of imported paper in 1913 was £583,529; stationery, £197,015; showcards, strawboards, &c., £180,917; books, approximately, £90,000. The exports of paper, cardboard, books, &c., in 1913 were estimated at £362,661 as compared with £387,793 in 1912, £366,273 in 1911, £353,536 in 1910, and £356,668 in 1909. The excess of imports over exports in paper, stationery, cardboard, &c., is thus very large, amounting in 1913 to an estimated value of over £798,500, and in 1912 to close on £817,500, and is one of the features of Irish trade which deserve particular attention.

Earthenware, China Goods, Glass and Cement.

Another class of imports which reaches a considerable annual value is that of the manufactures of clay, china, and glass goods. The total value of the imports of these goods was estimated in 1913 at £942,965 as compared with £985,358 in 1912, £928,294 in 1911, £873,047 in 1910, and £846,531 in 1909. In 1913 the import of bricks and tiles was estimated at £64,684; fire-clay, earthenware, and china goods at £259,931; glass, glassware, and bottles at £405,015; cement at £213,335. The contrast between the large import of these various classes of goods estimated at £942,965, and the export, estimated at £16,765, is very striking.

Chandlery.

A further group of articles of great interest is that of chandlery, including under this heading such goods as candles, soap, starch, matches, oils, paints, polishes, &c. Many of these articles are being manufactured in Ireland, and to some extent exported, but in this class of goods also there is a very considerable excess of imports over exports. The articles to which attention may be specially directed are as follows:—In 1913, candles imported, £104,962; exported £5,082; soap imported, £248,682; exported £27,186; starch imported, £60,308; exported, £3,147; paints and varnish imported, £275,306; exported, £18,403; matches imported, £118,285; exported, £1,506. There is also a very large import of oils, chiefly petroleum and paraffin, estimated in 1913 at £1,353,160. Altogether this class of goods represents in 1913 an import of a value estimated at £2,318,762, the exports being estimated at £133,198.

Chemicals, Fertilisers.

The total value of chemicals, drugs, fertilisers, and dye stuffs imported in 1913 is estimated at £1,320,161, as compared with £1,337,079 in 1912. In the case of drugs and chemicals, goods of this class are frequently sent in small consignments, and the figures submitted in the tables, both of quantity and value, are in all probability considerably lower than the actual quantities and values imported. As regards artificial fertilisers, there is a large import, the estimated value in 1913 being placed at £776,504. There is also a considerable export, estimated in 1913 at £170,619. Dye stuffs imported in 1913 were of a value estimated at £52,102.

Source and Destination of Imports and Exports

The above analysis indicates briefly the extent and character of Irish trade. With regard to the question of the source or "country of origin" of the imports and the final destination of the exports, as stated in previous Reports, the existing returns furnish little information. The trade which passes directly between Ireland and colonial and foreign countries is known, and the more important details as regards this trade at the chief ports in Ireland are presented annually by the Customs and Excise Department in their Statement of the Trade of the United Kingdom. The direct imports of foreign and colonial goods into Ireland during 1913 amounted to a value of £17,332,404, whereas the direct exports amounted to £2,119,383, of which £1,385,413 consisted of re-exports of foreign and colonial goods. But as regards the indirect colonial and foreign trade of Ireland which passes to and from the Irish ports *via* those of Great Britain, especially Liverpool and London, there are at present no means of distinguishing this from the colonial and foreign trade of Great Britain. Consequently the total trade of Ireland with countries outside of Great Britain cannot at present be ascertained.

At the same time, after examining carefully the quantities of goods shipped across Channel into and from Ireland, and as a result of inquiries made amongst traders, it is estimated that not more than one-fifth of Irish exports goes to colonial and foreign countries, the other four-fifths remaining in Great Britain ; and while it is much more difficult to ascertain what proportion of imports into Ireland are of colonial or foreign origin, it seems probable that at least one-third are articles of such origin, the remaining two-thirds being the produce of Great Britain.

Comparison with Foreign Trade of other Countries.

With regard to the total extent of the Irish import and export trade, the imports per head of population, according to the present returns, amount to £16 16*s.* 6*d.*, and the exports per head of population to £16 17*s.* 5*d.* ; or if the estimated value of re-exports is excluded, the imports amount to a value of £16 2*s.* 10*d.* per head of population, and the exports to £16 3*s.* 9*d.* per head of population. It is of interest to compare these

amounts with the corresponding figures of the foreign trade of the chief industrial States as shown in the following table :—

STATEMENT showing for the year 1913, or latest available year, the estimated Population and the Value per head of Population of the Foreign Trade of the undermentioned countries :—

COUNTRY.	Estimated Population.	Thousand £'s (000's omitted.)		Imports per head of Population.	Exports per head of Population.
		Total Imports for Home Consumption.	Total Exports of Domestic Produce.		
	No.	£	£	£ s. d.	£ s. d.
France	39,650,000	340,335	275,015	8 11 8	6 18 9
Belgium	7,639,000	181,354	141,322	23 14 10	18 10 0

Ireland	4,379,000	70,673*	70,886*	16 2 10	16 3 9

* Excluding re-exports estimated at £3,000,000.

As has been pointed out in preceding reports these figures indicate the wide difference which there is in the extent of foreign trade of different countries as measured per head of population. In some States, especially those of wide area and varied climatic conditions, the extent of foreign trade in proportion to the total production of the country is small. In all such cases increase or decrease in imports or exports is a very subordinate factor in the industrial progress of the country, and the growth of wealth depends chiefly on internal development and internal trade, and not on the exchange of commodities with other nations. On the other hand, countries which are small in size and with good maritime communication have in general a large foreign trade. Thus it is with Denmark, Belgium, and Holland ; thus also with Ireland.

This consideration has a very direct bearing on the question of the present returns. For the larger the foreign or external trade is in proportion to the internal trade, the greater to such a country

is the importance of having as full and accurate as possible a record of this external or foreign trade. It is accordingly of the greatest importance to have as full and reliable a record as possible of the external trade of Ireland. Such a record is of great industrial and commercial value, and this commercial purpose is the main value of trade statistics such as are submitted in the present Report. As regards the wider inferences of national gain or loss, these require the evidence of very much fuller data.

Appendices and Diagrams.

The references in the Consular Reports to Irish trade in 1913 have been brought together as in the Reports for previous years and are reprinted in the first Appendix. They represent the references to be found in the Consular Reports published since the last issue of this Report. In the second Appendix a table is presented showing the quantities and values of imports of the chief articles of agricultural and horticultural produce into the United Kingdom from British possessions and from foreign countries, and the corresponding exports from Ireland to Great Britain.

Two diagrams are also attached to the Report showing (I.) the monthly export of butter from Ireland and the monthly import of butter from foreign and colonial countries into the United Kingdom; and (II.) the monthly export of eggs from Ireland, and the monthly import of eggs from foreign and colonial countries into the United Kingdom.

From the first diagram it will be seen that the Irish export of butter in 1913 reached its height in the month of July. The shipments returned for that month amounted to 121,526 cwts. August was the second highest month of output, amounting to 113,224 cwts. June the third month, September and October the fourth and fifth. The point of greatest increase in the output was between the months of May and June, the output for May amounting to 61,001 cwts. only, while for June the amount returned was 105,940 cwts. The comparison of the monthly export of butter from Ireland and the monthly import from Denmark is of very practical interest, especially having regard to the monthly average of Irish Creamery Butter prices indicated by the prices line in the diagram.

From the second diagram, showing the exports of eggs, it will be seen that March, April, May and June were the months of heaviest export. The output, which rose rapidly from January onwards, fell away again after the month of April, and from May onwards there was a steady decline in the output until December, which marks the lowest point in the year. The fact also that Irish supplies are heaviest in the markets in the months when prices are lowest is plainly shown by a comparison of the lines indicating respectively the movement of prices and the changes in supplies.

A remarkable similarity exists in the curves representing the monthly exports of butter and eggs from year to year, and unfortunately in each case the months of largest Irish shipments are the months when prices are low, and the months of lowest Irish shipments are the months of highest prices.

In conclusion, I desire to acknowledge gratefully the assistance given by the port and harbour authorities of Ireland, the railway and shipping companies, and by many individual importers and exporters. I am also specially indebted to the Principal of the Statistical Office of the Customs and Excise Department, and to the Comptroller-General of the Commercial, Labour, and Statistical Department of the Board of Trade, for the information which they have kindly afforded.

I am, Sir,

Your obedient Servant,

THOMAS BUTLER,

Superintendent of Statistics and Intelligence Branch.

DEPARTMENT OF AGRICULTURE AND
TECHNICAL INSTRUCTION FOR IRELAND,
DUBLIN, 22*nd September*, 1914.

TOTAL ESTIMATED VALUE OF IMPORTS AND EXPORTS IN 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912 AND 1913.

	Imports.	Exports.	Total.

	Shell Fish, unclassified,	,,	6,362	7,330	27,867
110	Fishing Nets, ...	,,	*1,822	1	33

VALUES of COMMODITIES EXPORTED from IRELAND to GREAT during the year 1913.

Other Ports.	Total for Ireland.		Remarks.	Index No.
	Quantity.	Estimated Value.		
		£		
*33,105	†50,548 cwts.	44,019	*Principally from Larne and Greenore. †It is estimated that 17,088 cwts. of this quantity was made up as follows:—Soles, 1,002 cwts. = £4,420; conger eels, 5,027 cwts. = £3,797; hake, 1,743 cwts. = £2,086; ray or skate, 6,904 cwts. = £3,426; whiting, 2,412 cwts. = £1,824.	109
*16,972	20,650 ,,	2,323	*Principally from Drogheda, Waterford, and Greenore. The total export of mussels amounted to 22,135 cwts., as ascertained from special enquiries, the balance being entered in this Report as Shell Fish unclassified.	
*4,285	4,383 ,,	7,426	*Mostly from Greenore.	
13,932	13,938 ,,	62,721	This figure is probably somewhat too high as owing to a change in the classification at one of the ports the quantity of lobsters exported was overstated. The error, however, cannot be rectified.	
*11,707	11,926 ,,	2,683	The total export of winkles amounted to 24,345 cwts., as ascertained from special enquiries, the balance being entered in this Report as Shell Fish unclassified. *Principally from Rosslare, Waterford, and Sligo.	
1,273	†42,832 ,,	9,637	†Probably winkles and mussels.	
27	1,883 ,,	32,325	*£3,244 worth of Fishing Tackle of all kinds was exported from Belfast direct to Canada.	110

APPENDIX I.

Extracts relating to Irish Trade with Foreign Countries, taken from the Consular Reports of the undermentioned Countries :—

A.—FOR THE YEAR 1912 (*continued from previous Report*).

EUROPE.

BELGIUM.

Trade with Ireland.—There is little to be said on this subject, as the statistics given in Annexes 1 and 2 show the whole trade (both imports and exports) from and to Ireland. As regards imports both the volume and value are very small, and show a falling-off in 1912 as compared with 1911. In exports to Ireland there was, however, a very noticeable increase both in volume and value, principally accounted for by flax yarns and textiles, which form the principal trade between Belgium and Ireland.

As I have said on previous occasions, there is no doubt that the imports from Ireland, as given in the statistical returns, do not show the full importance of the trade between the two countries. This is doubtless owing to the fact that many imports from Ireland are classified under the heading of Great Britain as a result of their being shipped to Belgium from England, and of the inability of the customs officials to ascertain the real country of origin.

Annex 1.—Imports into Belgium from Ireland during the Years 1911–12.

FRANCE.

Marseilles.—Amongst the exports to Ireland were consignments of 3 tons of castor oil, 2 tons of medicinal roots, and 19 tons of dyewoods.

GERMANY.

Hamburg.—It is, as stated in previous years, not possible to furnish statistics of the trade between Hamburg and Ireland, as no special returns thereof are kept at this port.

Harburg.—The export of kainit maintained a good standard, whereas only one cargo of oil cake of 250 tons was exported.

NORWAY.

The imports from Ireland into Norway amounted in value to £3,178 in 1910, £2,322 in 1911, and £878 in 1912.

RUSSIA.

Libau.—The only shipment to Ireland during the year has been one of about 10 tons of hemp to Belfast. The imports from Ireland consisted of 11,771 barrels of herrings.

Pernau.—The exports to Ireland during 1912 consisted of 4,023 tons of flax and codilla, 6,258 bags of flaxseed, 7,200 tons of woodpulp, and 874 tons of oilcake.

Riga.—I am unable to furnish separate particulars with reference to trade with Ireland in 1912.

Petrograd.—1,671 tons of oilcake were shipped to Belfast in 1912. Only a few parcels of herrings were received, and the quality was satisfactory.

SPAIN.

Bilbao.—No distinction is made in customs statistics between imports from Ireland and those from other parts of the United Kingdom. Belfast sells decreasing quantities of linen goods to Bilbao. Seed potatoes have been imported from Ulster for some years, and give every satisfaction. Irish whiskey is not imported.

TURKEY.

Beirut.—Except for a small quantity of whiskey, imports from Ireland were insignificant.

ASIA.

CHINA.

Shanghai.—64,337 pieces of White Irishes were imported in 1912.

AMERICA.

BRAZIL.

Para.—Ginger ale is imported from Belfast.

CURACOA.

Fine biscuits came principally from Ireland, to the value of £389 10*s.*

PERU.

There are no separate figures as to trade with Ireland.

UNITED STATES.

Hawaii.—The value of the imports from Ireland in 1912 amounted to £170. There were no exports.

Galveston.—As in 1910, all the ale and stout imported into Galveston from the United Kingdom came from Ireland. Imports from Ireland during the years 1910-12 were as follows :—

Articles.	1910	1911	1912
	£	£	£
Ale and stout	2,609	3,383	1,585

B.—FOR THE YEAR 1913.

EUROPE.

FRANCE.

Bordeaux.—In 1913 6,776 gallons of wines in wood and 1,122 gallons of wines in bottle were exported direct to Ireland.

Bayonne.—During 1913 no goods were imported direct from Ireland, and only 200 tons of slates were exported to that country.

ITALY.

Marsala.—No direct import trade with Ireland can be reported. The only article exported to that country is Marsala wine.

NETHERLANDS.

The following tables show, first, the direct imports from Ireland, and, second, the direct exports to Ireland during the years 1911, 1912, and 1913 :—

I.—Imports from Ireland.

Articles.	1911	1912	1913
	Metric. tons.	Metric. tons.	Metric. tons.
Coal	5,648	28	—
Cotton and Woollen goods	90	211	114
Iron, pig	10,175	8,555	2,155
Metals, manufactured and wrought ...	10,364	8,320	2,329

Agricultural machinery	95	280	40
Cotton and Woollen goods	39	38	29
Hemp and Flax	566	983	733
Metals, manufactured and wrought ...	2,332	1,947	455
Metal articles	2,384	2,930	842
Paper	4,178	5,298	4,826
Tea	1,092	1,066	826

ROUMANIA.

Constantza.—One British steamer cleared from here in 1913 with a cargo of 3,120 tons of barley for Belfast. No other information is obtainable regarding trade with Ireland.

ASIA.

CHINA.

Wuchow.—The only articles of Irish produce noticed are tins of biscuits, which are rapidly gaining favour, and occasional bottles of Irish whiskey.

AMERICA.

UNITED STATES.

Portland.—The total value of the imports from Ireland in 1913 was £1,176.

Puget Sound.—The value of the imports from Ireland amounted in 1913 to £4,680, and the exports to Ireland were valued at £117,427.

Philadelphia.—The value of goods exported to Ireland during the year 1913 amounted to £79,032; and the imports from Ireland to £112,651.

New York.—The total value of the imports from Ireland in 1913 was £2,800,756, while the exports to Ireland amounted to £129,898. The value of the imports into the United States amounted to £3,505,887, and the exports to £2,482,344.

San Francisco.—The imports from Ireland amounted in value to 96,783 dollars, and the exports to 594,525 dollars.

Chicago.—From Ireland the direct imports increased during the year from £148,230 to £166,321, and were as follows :—

Articles.	1911.	1912.	1913.
	£	£	£
Linens	68,820	101,043	106,722
Handkerchiefs, laces, &c. ...	22,033	16,643	26,847
Spirits	10,984	9,052	9,912
Mackerel	9,231	3,682	—
Ginger ale, &c.	8,515	5,803	8,822
Beer	7,277	2,580	3,512
Cotton goods	3,850	1,746	4,550*
Iron and steel, manufactures of	—	4,305	1,221

* Of this, £2,159 for cotton handkerchiefs and mufflers.

Baltimore.—The total value of the imports from Ireland in 1913 was 116,146 dollars, the principal articles being linens and salted mackerel. The exports to Ireland amounted in value to 2,268,825 dollars.

UNITED STATES—*continued.*

Milwaukee.—The value of the imports from Ireland in 1913 was £1,744, linen cloths (£1,342) being the principal article.

St. Louis.—3,924 barrels of flour were exported to Ireland. The imports from Ireland amounted in value to 360,954 dollars.

The following tables (pp. 117-141 *extracted from publications issued by the Bureau of Statistics, Washington, show the imports and exports into and from Ireland from and into the United States during each of the twelve months ended* 30*th June,* 1912 *and* 1913. *The tables, however, do not cover the whole trade between Ireland and the United States. Goods manufactured or produced in Ireland, sold to firms in England, and by them exported to the United States, are, as a rule at least, accredited in the reports of the Bureau to England and not to Ireland.*

TOTAL VALUE OF TRADE BETWEEN IRELAND AND THE UNITED STATES DURING TWELVE MONTHS ENDED 30TH JUNE, 1912 AND 1913.

	1912. Dollars.	1913. Dollars.
Total Imports into Ireland from the United States	10,882,155	13,698,150

To

His Excellency Ivor Churchill, Baron Wimborne,

Lord Lieutenant-General and General Governor of Ireland.

May it please Your Excellency,

I am directed by the Vice-President to submit to your Excellency the following Report on the Trade in Imports and Exports at Irish Ports during the year ended 31st December, 1915.

I have the honour to remain,

Your Excellency's faithful Servant,

T. P. GILL,

Secretary.

Department of Agriculture

and Technical Instruction for Ireland,

Upper Merrion Street,

Dublin, 28*th February*, 1917.

Cont.
Dim. of 1915
30 Jan 22

DUBLIN CASTLE,

3rd March, 1917.

SIR,

I have to acknowledge the receipt of your letter of the 28th ultimo, forwarding for submission to His Excellency the Lord Lieutenant the Report on the Trade in Imports and Exports at Irish Ports for the year 1915.

I am, Sir,

Your obedient Servant,

W. P. BYRNE.

THE SECRETARY,

DEPARTMENT OF AGRICULTURE AND

TECHNICAL INSTRUCTION FOR IRELAND,

DUBLIN.

REPORT ON THE TRADE

IN

IMPORTS AND EXPORTS AT IRISH PORTS

DURING THE YEAR 1915.

To the Secretary of the Department of Agriculture and Technical Instruction for Ireland.

Sir,

I have the honour to submit the Report on the Trade in Imports and Exports at Irish Ports during the year ended 31st December, 1915.

The publication of this Report has been unavoidably delayed by the fact that most of the clerical staff engaged in its compilation have joined His Majesty's Forces since the outbreak of war.

The inadequacy of the present system of returns upon which these Reports are based and the importance of this consideration has been fully dealt with in previous Reports.

In the tables and figures herewith submitted, as explained in previous Reports, Irish imports and exports mean all goods imported or exported by Ireland, whether from or to Great Britain, the Colonies, or foreign countries—the terms including not only the colonial and foreign trade, but also the Cross-Channel trade between Great Britain and Ireland.

The following table* shows the total estimated value of all imports into and all exports from Ireland during each of the five years 1911 to 1915 :—

Year.	Imports.	Exports.	Total.
	£	£	£
1911 ..	67,610,095	65,071,018	132,681,113
1912 ..	73,952,725	67,167,904	141,120,629
1913 ..	74,467,283	73,877,389	148,344,672
1914 ..	73,994,732	77,311,052	151,305,784
1915 ..	87,950,316	84,463,408	172,413,724

* The figures in this Report for the year 1914, and for previous years, have been slightly revised since the issue of the corresponding Report for the year 1914. Goods imported and afterwards re-exported are included in the figures for imports and exports; it is impossible to state with accuracy the value of such re-exports, but it is estimated that in 1915 they amounted in value to £2,300,000. The re-imports are very small. In the case of all dutiable commodities the values have been estimated exclusive of duty.

The money value of the trade in 1915 greatly exceeded that for 1914, but the increase is more than accounted for by the rise in prices. Had the average prices in 1915 been the same as in 1914, the value of the imports instead of showing an increase of £13,955,584 or 18·9 per cent. would have decreased by £1,556,598 or 2·1 per cent., the value of the exports instead of increasing by £7,152,356 or 9·3 per cent., would have decreased by £5,639,733 or 7·3 per cent., and the value of the total trade instead of increasing by £21,107,940 or 14·0 per cent., would have shown a decrease of £7,196,331 or 4·8 per cent.

In order to obtain a more definite but still a broad idea of the trade, the imports and exports are classified * into (1) Farm produce, food and drink stuffs; (2) Raw materials; (3) Manufactured goods. The following table shows the values of the imports into and the exports from Ireland of each of these groups:—

	1913.	1914.	1915.	1913.	1914.	1915.
IMPORTS.	£	£	£	per cent.	per cent.	per cent.
Farm produce, food and drink stuffs.	25,765,221	26,970,893	33,440,026	35	37	38
Raw Materials	12,114,200	11,162,031	14,000,440	15	14	16
Manufactured Goods	36,587,862	35,861,808	40,509,850	50	49	46
Total Imports ..	74,467,283	73,994,732	87,950,316	100	100	100
EXPORTS.						
Farm produce, food and drink stuffs.	41,050,048	41,606,872	48,693,566	55	54	58
Raw Materials	4,511,104	4,526,980	4,103,042	6	6	5
Manufactured Goods	28,316,237	31,177,200	31,666,800	39	40	37
Total Exports ..	73,877,389	77,311,052	84,463,408	100	100	100

I.—FARM PRODUCE, FOOD AND DRINK STUFFS.

The first line of the above table brings out the extraordinary fact that Ireland, an agricultural country, is largely dependent on other countries for her farm produce, food and drink stuffs; the value of her imports of these commodities amounted in 1915 to 38 per cent. of the value of her total imports.

The exports of farm produce, food and drink stuffs from Ireland are of course very large, their value in 1915 accounting for 58 per cent. of the value of the total exports; practically all go to Great Britain and are consumed there. An idea of the importance of this trade to Great Britain will be obtained from the following table, which, in addition to the estimated values of the Irish exports, shows the values of the imports into the United

* These classes are not mutually exclusive, but the division is simple, well known, and of practical interest.

Kingdom of this group from the principal Foreign Countries and British Possessions of supply :—

FARM PRODUCE, FOOD AND DRINK STUFFS, INCLUDING TOBACCO.

Russia	15,079,035	12,631,825	8,609,519

Attention is directed to the tables in Appendix I. of this Report, which show for the year 1915 the quantities and values of each of the chief articles of agricultural produce imported into the United Kingdom from Foreign Countries and British Possessions and the corresponding exports from Ireland. The following are some of the more important facts disclosed by the Appendix.

The value of *Cattle and beef* exported from Ireland to Great Britain in 1915 was greater than the value imported from any other country. The Irish export amounted to a value of £15,863,000, the next largest import was from Argentina, valued at £15,304,000. The import from Australia, valued at £3,565,000, came next in order of magnitude.

The Irish export of *Sheep and mutton*, valued in 1915 at £1,128,000, was the fourth greatest, being exceeded by the imports from New Zealand, £7,670,000, Australia, £3,391,000 and Argentina, £2,094,000.

As regards the total value of *Bacon, hams, pork, and live pigs*, Ireland comes third on the list with a value amounting to £6,810,000, as compared with £17,901,000 from the United States of America, and £9,130,000 from Denmark. The imports from Canada came fourth with a value of £3,743,000.

* The figures of exports to the United Kingdom, as shown in this table, have been extracted from the Annual Statement of the Trade of the United Kingdom, 1915, Vol. II. (Cd. 8357—1916).

The export of *Poultry* from Ireland was much greater than that from any other country to the United Kingdom, Ireland exporting to Great Britain poultry to the value of £1,394,260, while the largest value of imports from other countries to the United Kingdom was from the United States, £316,048.

The Irish export of *Butter*, value £5,751,385, to Great Britain was the third largest in quantity and value; the export from Denmark into the United Kingdom being first, value £10,221,398, and that from Russia second, value £6,371,012.

The Irish export of *Eggs* was the largest in quantity and value, amounting to £7,577,763 gt. hunds., valued at £4,799,250. the imports into the United Kingdom from Russia being the next largest in quantity, amounting to 3,074,156 gt. hunds., valued at £1,749,822. The imports from Denmark were 2,657,835 gt. hunds., valued at £1,863,527.

The Irish export of *Potatoes*, which amounted to 191,444 tons, valued at £765,776, was the largest import of potatoes into Great Britain. The quantity imported from the Channel Islands though amounting to only 57,924 tons, was valued at £659,162, as their trade is chiefly in early potatoes.

As regards *Oats*, the export from Ireland (1,869,000 cwts.) was third, the United States (8,183,000 cwts.) and Argentina (5,807,000 cwts.), being the largest exporters to the United Kingdom.

The above figures include the total exports from Ireland and the total imports into the United Kingdom (not into Great Britain) of farm produce, food and drink stuffs. Official figures are not available, but fairly accurate estimates can be made, which would give a direct comparison between Ireland and other countries as suppliers to Great Britain of this group of commodities. To make the comparison exact, the figures for Ireland should be reduced by the values of the Irish produce consumed abroad, and the figures for other countries should be reduced by the values of the goods consumed in Ireland which are included in the totals for the United Kingdom. The deductions would be comparatively small, and the figures shown in the last table, and in the above paragraphs indicate with sufficient accuracy the importance of the part played by Ireland as a supplier of food stuffs to Great Britain.

(A). Live Stock and Animal Products.

This is the principal sub-division of the group of farm produce, food and drink stuffs. The imports into Ireland of *Live stock* are comparatively small amounting in value in 1915 to £439,427.

Details of this trade will be found on page 4. The exports from Ireland of live stock are exceedingly large as will be seen from the following table :—

EXPORTS.

	Number.				Value.			
	1912	1913	1914	1915	1912	1913	1914	1915
					£	£	£	£
Horses ..	34,849	36,643	30,940	17,818	1,627,040	1,703,260	1,431,045	1,121,520
Cattle—Fat	336,583	354,953	455,817	363,837	5,766,789	6,307,811	8,181,915	8,469,822
Stores	194,113	693,374	448,983	441,282	2,396,954	8,850,187	5,960,196	7,110,093
Calves	15,774	53,142	34,432	27,009	78,870	265,710	172,160	175,559
Other	8,851	8,152	6,178	9,459	44,255	40,760	30,890	71,143
Total Cattle	555,321	1,109,621	945,410	841,587	8,286,868	15,464,468	14,345,161	15,826,617
Sheep ..	328,135	319,419	256,992	230,162	723,937	779,814	631,553	647,015
Lambs ..	290,841	339,836	282,115	259,495	380,517	492,762	423,173	471,957
Total Sheep and Lambs	618,976	659,255	539,107	489,657	1,104,454	1,272,576	1,054,726	1,118,972
Pigs, Fat ..	253,165	187,422	146,458	171,963	1,265,825	983,966	732,290	1,146,420
.. Stores	12,076	12,874	1,466	7,095	36,228	40,231	4,398	25,719
Total Pigs ..	265,241	200,296	147,924	179,058	1,302,053	1,024,197	736,688	1,172,139

The export of horses in 1915 appears from the above table to have been very small, but it should be remembered that *Army horses, and, in fact, all Government Stores are excluded from these records of Irish trade.* The exports of cattle also appear to have been decreasing during the last four years, but the numbers exported in 1915 were about normal; the heavy shipments in 1913 were due to the fact that large numbers had, on account of the outbreak of Foot and Mouth Disease in Ireland, to be kept in the country in the latter half of 1912 which also accounted for the small exports in that year. The large exports in 1914 were caused by the rise in prices immediately after the outbreak of war, which induced Irish cattle owners to ship exceedingly large numbers of cattle in the last four months of 1914.

The imports *of Meat* into Ireland are very considerable as will be seen from the following table :—

IMPORTS.

	Quantities.				Values.			
	1912	1913	1914	1915	1912	1913	1914	1915
	cwts.	cwts.	cwts.	cwts.	£	£	£	£
Beef ..	121,289	139,485	84,178	26,476	207,707	244,099	180,983	79,428
Mutton ..	62,161	49,544	36,693	17,148	119,660	101,565	80,725	50,587
Pork ..	6,713	3,392	4,746	2,722	4,867	2,883	3,500	5,467
Bacon ..	564,093	568,921	557,271	763,268	1,776,893	2,048,116	1,992,244	2,976,745
Hams ..	21,610	23,504	20,543	43,978	65,370	84,614	74,982	156,855
Pigs' Heads	114,033	135,574	141,227	16,191	108,331	162,689	190,656	30,763
Other Dead Meat (*a*) ..	87,137	81,205	84,094	69,204	213,683	230,080	226,037	270,031
Total of above	977,036	1,001,625	928,752	938,987	2,496,511	2,874,046	2,749,127	3,569,876
Provisions & Groceries.	89,996	112,872	94,415	102,950	220,490	324,507	276,164	391,210

(*a*) Poultry is not included here.

The most interesting feature of this table is the very large increase shown in the imports of bacon in 1915. The imports of beef and mutton and pigs' heads were much less than in previous years.

The exports of meat from Ireland in each of the years 1912 to 1915 inclusive were as shown in the following table :—

EXPORTS.

—	Quantities.				Values.			
	1912	1913	1914	1915	1912	1913	1914	1915
	cwts.	cwts.	cwts.	cwts.	£	£	£	£
Beef and Mutton ..	99,064	36,189	144,315	10,784	266,300	114,524	480,903	45,263
Pork ..	89,731	61,165	72,810	107,246	247,134	194,454	217,520	396,810
Bacon ..	1,163,063	995,257	969,139	1,025,367	3,620,034	3,582,925	3,440,443	4,562,883
Hams ..	142,091	120,419	121,250	119,980	600,334	626,179	624,438	677,887
Other Dead Meat (*a*) ..	253,238	206,783	266,616	191,577	409,365	362,430	523,776	443,581
Total of above	1,747,187	1,419,813	1,574,130	1,454,954	5,143,167	4,880,512	5,287,080	6,126,424
Provisions & Groceries (*b*).	22,080	23,787	32,353	50,663	68,724	85,633	114,853	225,450

(*a*) Poultry is not included here.
(*b*) It is found that under this heading quantities of bacon and hams are exported.

According to these figures five-sixths of the total value of dead meat exported consists of bacon and hams. It is worthy of note that Ireland imports bacon and hams valued at £3,133,600, while at the same time she exports her own produce to the value of £5,240,770.

The following table shows the total quantities and estimated values of *Butter* and *Eggs* exported from Ireland during each of the five years, 1911 to 1915, inclusive :—

Year.	Butter.		Eggs.	
	Quantity.	Value.	Quantity.	Value.
	Cwts.	£	Gt. Hunds.	£
1911 ..	688,362	3,671,264	6,488,776	2,940,227
1912 ..	778,778	4,159,972	6,313,525	2,926,582
1913 ..	725,368	3,735,645	6,398,235	3,019,167
1914 ..	855,608	4,641,673	6,824,612	3,383,870
1915 ..	838,089	5,751,385	7,577,763	4,799,250

These figures do not include consignments sent by parcels post, but these form a very small part of the total export.

It will be noticed that the quantity of butter exported in 1915 was less than the export in 1914 but greater than the quantity

exported in any of the years, 1911, 1912, or 1913, while the value was greater than in any of the four preceding years. As regards eggs both the quantity and value in 1915 were much greater than in any of the previous years. The imports of butter and eggs are relatively small, amounting in 1915 to £443,942, and £46,251 worth respectively. The exports of Poultry in 1915 amounted to 298,770 cwts. valued at £1,394,260.

Attention is directed to the diagrams (see page xx), which show for the year 1915 for eggs and butter respectively (1) the monthly exports from Ireland, (2) the monthly imports into the United Kingdom from abroad, and (3) the monthly average price at Irish markets.

There was an increase in the export of *Fish* from Ireland in 1915, the total value, including shell-fish, exported, being estimated at £659,995, in 1915, as compared with £451,880 in 1914; the value of fish, including shell-fish, imported in 1915 was estimated at £448,741 as compared with £392,352 in 1914.

(B). Cereals—Grain, Flour, Feeding Stuffs.

The total quantities and estimated values of the imports of *Wheat* and *Wheat Flour*, which are the principal imports amongst the cereals for human consumption, in each of the years 1911 to 1915 are shown in the following table :—

Year.	Wheat Imports.		Wheat Flour Imports.	
	Quantity.	Value.	Quantity.	Value.
	Cwts.	£	Cwts.	£
1911 ..	7,839,093	3,233,626	5,001,058	2,625,555
1912 ..	7,471,974	3,300,122	4,775,622	2,586,795
1913 ..	7,849,871	3,368,903	4,968,282	2,629,049
1914 ..	7,295,225	3,313,248	5,198,035	2,858,919
1915 ..	6,399,742	4,239,829	4,661,898	3,690,669

From these figures it will be seen that the quantities of both wheat and wheat flour imported in 1915 were less than in any of the four preceding years. In the Agricultural Statistics of Ireland, the amount of Irish-grown wheat in 1915 was estimated at 1,734,407 cwts., and if it is assumed that one and a half tons of wheat produced one ton of flour, the total quantity of wheat represented by imports of wheat and flour and by home-grown wheat amounted to 15,126,996 cwts. From this quantity has to be deducted an export of wheat and wheat flour or its equivalent in wheat amounting to 579,857 cwts. leaving thus a residue for consumption in Ireland of 14,547,139 cwts. of wheat; this would be the produce in an average year of 730,000 statute acres in Ireland.

The imports into Ireland of *Barley* and *Malt* are very considerable as will be seen from the following table :—

Year.	Barley.		Malt.	
	Quantity.	Value.	Quantity.	Value.
	Cwts.	£	Cwts.	£
1911 ..	1,152,323	378,207	830,597	490,551
1912 ..	1,162,584	456,610	878,642	621,995
1913 ..	1,521,715	524,013	746,069	500,418
1914 ..	804,736	259,997	1,216,943	757,743
1915 ..	1,005,762	475,450	632,179	505,743

Thus in the year 1915 the imports of Barley though greater than in the previous year were less than in any of the years 1911, 1912, or 1913, and the imports of Malt were less than in the years 1911, 1912, or 1913, and fell by nearly 50 per cent. as compared with 1914.

Among the feeding stuffs for animals the chief import is *Maize*, a very great quantity of which is annually imported into Ireland. The following were the imports in each of the five years 1911 to 1915 inclusive :—

Year.	Quantity.	Value.
	Cwts.	£
1911	11,927,375	3,304,877
1912	13,582,134	4,244,417
1913	14,880,194	4,154,054
1914	13,128,145	4,102,545
1915	13,719,106	5,487,642

Together with the above import of maize, the imports of bran, pollard, and the various classes of cattle meals and cakes, brought the total value of *Animal feeding stuffs* imported in 1915 to a sum estimated at £7,377,426 as compared with £5,446,915 in 1914.

Large quantities of *Oats* and *Potatoes* are exported each year from Ireland as will be seen from the following table :—

Year.	Oats.		Potatoes.	
	Quantity.	Value.	Quantity.	Value.
	Cwts.	£	Tons.	£
1911 ..	1,358,563	458,515	183,230	641,305
1912 ..	1,180,033	427,762	171,131	513,393
1913 ..	1,475,509	485,688	124,020	472,826
1914 ..	1,540,569	590,551	187,922	634,237
1915 ..	1,868,935	918,893	191,444	765,776

These figures show that the quantities of both Oats and Potatoes shipped from Ireland in 1915 exceeded the quantities shipped in any of the preceding four years.

(C). Other Food Stuffs, Drink and Tobacco.

Amongst the "Other Food Stuffs" imported into Ireland the most important are *Sugar* and *Tea*. The following table shows the total quantities and values of these imports in each of the years 1911 to 1915 inclusive :—

Year.	Sugar.		Tea.	
	Quantity.	Value.	Quantity.	Value.
	cwts.	£	lbs.	£
1911 ..	2,721,965	2,086,840	33,047,616	1,239,286
1912 ..	2,785,793	2,298,279	33,874,960	1,235,025
1913 ..	2,836,928	1,903,106	32,663,344	1,224,875
1914 ..	2,677,266	2,152,968	39,611,040	1,518,423
1915 ..	2,684,745	3,378,304	38,535,840	1,758,198

The values of both Sugar and Tea as well as of all other dutiable commodities have been estimated exclusive of duty. It will be seen from these figures that there was a very slight increase in the amount of Sugar imported in 1915 compared with the previous year, but that the quantities for both of these years were less than the imports in 1911, 1912, or 1913. As regards Tea, the quantity imported in 1915, though less than in 1914, was considerably higher than the quantities imported in any of the three preceding years.

There was a decrease in the quantities of home-made spirits exported from Ireland in 1915, compared with any of the previous four years ; the exports of Porter, though less than in 1914, were greater than in 1911, 1912, or 1913. The quantities of *Home-made Spirits* imported into Ireland are small ; they amounted in 1915 to a value of £84,074. The quantities of home-made spirits exported from Ireland were 7,569,966 proof gallons in 1911, 7,237,426 pf galls. in 1912, 7,415,999 pf. galls in 1913, 7,127,547 pf galls. in 1914, and 6,867,608 pf galls. in 1915. The values were £2,050,199 in 1911, £1,960,136 in 1912, £2,008,500 in 1913, £1,930,377 in 1914, and £1,859,977 in 1915. The exports of *Porter* from Ireland were 729,298 hhds. in 1911, 794,447 hhds. in 1912, 859,056 hhds. in 1913, 889,696 hhds. in 1914, and 887,591 hhds. in 1915. The values were estimated at £1,926,562 in 1911, £2,098,664 in 1912, £2,269,340 in 1913, £2,446,664 in 1914, and

£2,500,048 in 1915. The value of Ale, Beer, and Porter imported in 1915 was £434,466 as compared with £615,459 in 1914.

There was an increase in the quantity of Unmanufactured *Tobacco*, and a decrease in the quantity of Manufactured Tobacco imported into Ireland in 1915 as compared with 1914. The exports of both Unmanufactured and Manufactured Tobacco showed an increase. The quantities of Unmanufactured Tobacco imported were 13,931,626 lbs. in 1911, 15,884,015 lbs. in 1912, 9,234,752 lbs. in 1913, 12,980,192 lbs. in 1914, and 19,136,878 lbs. in 1915. The exports of Unmanufactured Tobacco were 902,069 lbs. in 1911, 705,414 lbs. in 1912, 772,488 lbs. in 1913, 811,633 lbs. in 1914, and 1,278,990 lbs. in 1915. The quantities of Manufactured Tobacco imported were returned as 3,155,712 lbs. in 1911, 4,031,496 lbs. in 1912, 4,687,116 lbs. in 1913, 5,346,348 lbs. in 1914, and 4,649,064 lbs. in 1915. The exports of Manufactured Tobacco were 7,744,710 lbs. in 1911, 8,208,810 lbs. in 1912, 8,098,378 lbs. in 1913, 8,295,537 lbs. in 1914, and 8,922,810 lbs. in 1915. The figures shown for Unmanufactured Tobacco imported and exported have been kindly furnished by the Customs and Excise Department, the figures for Manufactured Tobacco are those returned by Portal Authorities, Railway and Shipping Companies, etc., who furnish the Returns to this Department.

II.—RAW MATERIALS.

For the purposes of the broad classification adopted in the summary tables, raw materials include coal, coke, rough and sawn timber, boards and deals, stones, slates, sand, clay, metal ores and other mineral substances, hides, skins, horns and hoofs, wool, bristles, feathers, flax, raw cotton, hemp, jute, tow, waste, seeds, plants, and bulbs, ice, &c. The total value of raw materials imported into Ireland in 1915 was estimated at £14,000,440, as compared with £11,162,031 in 1914, showing an increase of £2,838,409. It should be noted, however, that this increase was altogether due to higher average values; for, had the average prices of Raw Materials in 1915 been the same as in 1914, instead of an increase of £2,838,409 there would have been a decrease of £900,609. The imports consist mainly of coal, wood, flax, and other raw materials of the textile industries. There is also a large import of raw cotton, which is re-exported to Northern Europe.

The exports of raw materials in 1915 were estimated at a value of £4,103,042, as compared with £4,526,980 in 1914. Excluding the re-export of raw cotton, valued in 1915 at £237,167, these consist mainly of animal produce, such as hides, skins, wool, fats,

&c., and, to a lesser extent, of seeds, timber, and other vegetable produce. The item raw cotton, which has been referred to above, while it must be accounted for in a record of Irish trade, is neither an import for home consumption nor an export of domestic produce, neither is it worked up in any way in Ireland, but is merely transhipped.

The estimated values of the chief imports of raw materials in each of the years 1911 to 1915 were as follows :—

IMPORTS.

—	1911.	1912.	1913.	1914.	1915.
	£	£	£	£	£
Coal ..	3,754,976	3,940,553	4,214,697	3,911,979	6,123,914
Slates ..	120,574	120,322	101,436	95,357	76,055
Timber ..	1,735,953	1,937,159	1,986,025	1,898,824	1,808,471
Flax ..	1,955,355	2,416,958	2,300,115	2,031,003	2,430,200
Hemp and Jute, Tow and Codilla	550,731	657,456	710,268	699,191	1,286,102
Lard, Tallow, &c. ..	269,996	197,585	216,744	246,656	288,649

The values of the chief exports in the same years were :—

EXPORTS.

—	1911.	1912.	1913.	1914.	1915.
	£	£	£	£	£
Timber ..	251,452	259,131	235,920	282,222	283,086
Hides and Skins ..	593,993	697,908	735,416	829,219	830,553
Wool ..	575,173	773,220	511,566	860,985	741,966
Lard, Tallow, &c. ..	412,028	415,008	379,402	425,899	397,831
Grass Seed	371,388	333,094	251,151	235,646	312,880

In connection with the above figures it will be noticed that more than half of the total value of Raw Materials imported was made up of Coal and Flax. The value of the import of *Coal* was much higher than in any previous year, as during some months of 1915 sea freights rose very high and the values are calculated c.i.f. Shortage of supplies of *Flax* from abroad due to war conditions accounted for the higher value of flax in 1915 compared

with 1914. It should also be stated that the imports of *Wood and Timber* consist mainly of sawn timber, boards and deals, whereas 90 per cent. of the exported timber is shipped out of the country in the rough or round state—an uneconomic condition of affairs. The large export of *Hides and Skins* amounting to £830,553 should be compared with the imports of leather and leather goods, boots, shoes, saddlery, etc. which approximate a value of £2,800,000. The quantity of *Wool* exported in 1915 amounted to 10,175,536 lbs., valued at £741,966 compared with 16,367,232 lbs. in 1914, valued at £860,985. While exporting this large quantity of raw material Ireland is importing large quantities of the finished woollen goods, and it is not simply in one branch but in several—in wood, hides and skins, wool, as well as in various minor exports such as feathers, kelp, and most of all in her store cattle—that Ireland is exporting the raw materials of industry.

III. MANUFACTURED ARTICLES.

The third division of Irish imports and exports is that of manufactured goods. The value of the imports in 1915 was estimated at £40,500,000, or 46 per cent. of the total value of imports. The export of manufactured goods was estimated at £31,700,000, or about 37 per cent. of the value of the total export. The value of the imports increased by £4,640,000, and the exports by £490,000 as compared with 1914. Increases in the values of the imports of Textile Piece Goods, Apparel, Drapery, &c., amounted roughly to £3,000,000.

The values given in these Reports are estimates based on the actual quantities imported or exported, and accordingly the values of goods such as agricultural products and raw materials, which are usually sold by weight, are bulky and are easily defined, will be found to be fairly accurate; the less bulky and more extensive class of manufactured goods are naturally more vaguely described on the returns, and accordingly their estimated values are less reliable than the values of agricultural products and raw materials. As pointed out in previous Reports, the values of manufactured goods cannot be satisfactorily determined from the information given in the present system of Returns.

(A). Textiles.

The first and largest group of manufactured goods is that of the textiles. The combined value of imports and exports in 1915 of manufactured textile goods amounted to £43,797,441 as compared with £38,828,491 in 1914, a sum well over one-half of the

total value of all manufactured goods imported and exported. Distinguishing yarns, thread, rope, cordage, &c., from piece goods and made-up goods, the value of the imports of the former was in 1915 estimated at £2,287,401 as compared with £2,067,098 in 1914. The imports of piece goods, ready-made goods, drapery, and apparel in 1915 amounted to £18,004,447, as compared with £15,141,422 in 1914 ; the exports to £20,295,415 as compared with £18,884,034 in 1914. A considerable quantity of cotton goods is imported for purposes of further manufacture, and is afterwards re-exported. The outstanding feature in the case of exports, is the fact that almost three-fourths of the textile piece goods exported are returned as "linens," but this term in the returns of the portal authorities has a wide significance, and probably includes cotton, union, and other textile goods which are consigned as "linens." The estimated value of exports of "linen" goods amounted to £14,904,226 as compared with £14,353,032 in 1914. The returns show an increase in the value of the exports of woollen goods from £791,686 in 1914 to £1,150,846 in 1915, but the exports are still considerably less than the imports.

(B) Metals and Metal Manufactures.

The group of metals and metal articles, machinery, ships, &c., is a very wide class, and in gross annual value is next in importance to the textiles. It is estimated that in 1915 the total value of the imports of metals and metal manufactures amounted to £9,256,606, while the exports were estimated at £6,309,722. Among the imports £2,023,000 represented steel, bar and wrought iron, and plates and sheets ; £1,951,000 represented machinery (chiefly agricultural and textile) and railway engines ; and £730,000 represented imports of cycles and motor cars. As regards exports, they consisted chiefly of steam vessels valued at £4,721,500, and machinery valued at £891,494. Thus there are large individual exports in this class, but as a whole the trade in hardware and metal goods and manufactures stands in contrast to the textile trade. For whereas the value of the textile exports appears even greater than that of the imports there is a very large surplus of metals and metal manufactures imported over what is exported.

(C). Other Groups of Manufactured Goods.

Leather and Leather Goods.—The imports of this group amounted to £3,423,553 ; the exports to £429,669. Included in the imports were leather valued at £780,475, and boots and shoes valued at £1,796,519.

Wooden Manufactures.—The imports were valued at £1,083,013, and the exports at £378,712. The imports included furniture valued at £466,514. It is difficult to say how much of this was a genuine import, as it is known that considerable quantities of private furniture (removals) are included in this figure.

Paper, Stationery, etc.—The imports of this group amounted to £1,081,596, and the exports to £307,828. The value of paper imported amounted to £499,962.

Earthenware, China, Glass, etc.—The total value of these imports amounted to £1,050,082. The exports were small, valued at £29,611. Glass, glassware, and bottles imported amounted to £470,338.

Chandlery.—The value of the imports of chandlery, including many classes of goods, such as oils, paints, soap, candles, etc., amounted to £2,468,816 ; the exports to £192,445.

Chemicals and Fertilisers.—The total value of the imports of chemicals, fertilisers, and dyestuffs amounted to £1,671,933 ; the exports to £215,898. The value of fertilisers imported was £973,978 ; the exports amounted to £150,322.

The above analysis indicates briefly the extent and character of Irish trade. With regard to the question of the source or "country of origin" of the imports and the final destination of the exports, as stated in previous Reports, the existing returns furnish little information. The trade which passes directly between Ireland and colonial and foreign countries is known, and the more important details as regards this trade at the chief ports in Ireland are presented annually by the Customs and Excise Department in their Statement of the Trade of the United Kingdom. The direct imports of foreign and colonial goods into Ireland during 1915 amounted to a value of £16,774,182, whereas the direct exports amounted to only £264,714. But as regards the indirect colonial and foreign trade of Ireland which passes to and from the Irish ports *via* Great Britain, there are at present no means of distinguishing this from the colonial and foreign trade of Great Britain. Consequently the total trade of Ireland with countries outside of Great Britain cannot at present be ascertained.

The imports into Ireland per head of population according to the present returns, amount to £20 5*s.* 7*d.*, and the exports per head to £19 9*s.* 7*d.* ; or if the estimated value of re-exports is excluded, the imports amount to a value of £19 15*s.* 0*d.* per head of population, and the exports to £18 19*s.* 0*d.* per head.

It is of interest to compare these amounts with the corresponding figures for other countries which are shown in the following table :—

Country.	Estimated Population.	Thousand £'s (000's omitted.) Total Imports for Home Consumption.	Total Exports of Domestic Produce.	Imports per head of Population.	Exports per head of Population.
		£	£	£ s. d.	£ s. d.
France (1914)	39,660,000	253,968	192,981	6 8 1	4 17 4
Belgium (1913)	7,639,000	181,354	141,322	23 14 10	18 10 0
Germany (1913)	67,082,000	529,544	496,482	7 17 11	7 8 0
Netherlands (1914)	6,340,000	235,547	207,824	37 3 0	32 15 7
Denmark (1913)	2,830,000	43,190	35,409	15 5 3	12 10 3
Switzerland (1915)	3,904,000	67,201	66,802	17 4 3	17 2 3

United Kingdom (1914)	46,407,000	601,161	430,721	12 19 1	9 5 8
Ireland (1915)	4,337,000	85,650*	82,163*	19 15 0	18 19 0

* Excluding re-exports estimated at £2,300,000.

As has been pointed out in preceding reports these figures indicate the wide difference which there is in the extent of foreign trade of different countries as measured per head of population. In some States, especially those of wide area and varied climatic conditions, the extent of foreign trade in proportion to the total production of the country is small. In all such cases increase or decrease in imports or exports is a very subordinate factor in the industrial progress of the country, and the growth of wealth depends chiefly on internal development and internal trade, and not on the exchange of commodities with other nations. The larger the foreign or external trade of a country is in proportion to its internal trade, the greater is the importance of having as full and accurate as possible a record of this external or foreign trade. It is accordingly of the greatest importance to have as full and reliable a record as possible of the external trade of Ireland but as has been repeatedly pointed out in previous Reports, the present records of this trade are far from being as accurate and as detailed as is desirable.

In conclusion, I desire to acknowledge the assistance given by the port and harbour authorities of Ireland, the railway and shipping companies, and by many individual importers and exporters in furnishing information for this Report. I am also specially indebted to the Principal of the Statistical Office of the Customs and Excise Department, and to the Comptroller-General of the

Commercial, Labour, and Statistical Department of the Board of Trade, for the information which they have kindly afforded.

I am, Sir,

Your obedient Servant,

JOHN HOOPER,

Statistics and Intelligence Branch.

DEPARTMENT OF AGRICULTURE AND
TECHNICAL INSTRUCTION FOR IRELAND,
DUBLIN, 26*th February*, 1917.

TOTAL ESTIMATED VALUE OF IMPORTS AND EXPORTS IN EACH OF THE YEARS 1904 TO 1915, INCLUSIVE.

	Imports.	Exports.	Total.
	£	£	£
1904	55,344,986	49,784,760	105,129,746
1905	57,009,145	51,392,547	108,401,692

for "Other Foreign Countries" or "Other British Possessions."

APPENDIX II.

The following tables (pp. 102–113) extracted from publications issued by the Bureau of Statistics, Washington, show the imports and exports into and from Ireland from and into the United States during the twelve months ended 30th June, 1915. The tables, however, do not cover the whole trade between Ireland and the United States. Goods manufactured or produced in Ireland, sold to firms in England, and by them exported to the United States, are, as a rule at least, accredited in the reports of the Bureau to England and not to Ireland.

TOTAL VALUE OF TRADE BETWEEN IRELAND AND THE UNITED STATES DURING TWELVE MONTHS ENDED 30TH JUNE, 1914 AND 1915.

	1914. Dollars.	1915. Dollars.
Total Imports into Ireland from the United States	11,679,517	22,594,519
Total Exports from Ireland to the United States free of duty ..	1,399,860	1,608,210
Total Exports from Ireland to the United States subject to duty	16,413,173	16,727,239
Total Imports and Exports ..	29,492,550	40,929,968

INDEX 102

REPORT ON THE TRADE

IN

IMPORTS AND EXPORTS AT IRISH PORTS

DURING THE YEAR 1919.

To the Secretary of the Department of Agriculture and Technical Instruction for Ireland.

Sir,

I have the honour to submit the Report on the Trade in Imports and Exports at Irish Ports during the year ended 31st. December, 1919.

The inadequacy of the present system of voluntary returns upon which these Reports are based has been fully dealt with in previous Reports. The inadequacy has been all the more marked since the outbreak of war. In this connection it should be mentioned that under the Defence of the Realm Act the Food Controller made "The Irish Returns Order, 1918," which came into force on the 9th November, 1918, requiring all owners of vessels engaged in the Cross-Channel trade between Ireland and Great Britain to furnish compulsory returns of the quantities of certain specified articles shipped or unshipped at Irish Ports to or from Ports in Great Britain and the Isle of Man. Returns are required in respect of 45 articles imported and 43 articles exported. These compulsory returns are very much more satisfactory than the voluntary returns ; they are received daily, and are up-to-date, and the commodities are described in a precise manner.

In the tables and figures herewith submitted, as explained in previous Reports, Irish imports and exports mean all goods imported or exported by Ireland, whether from or to Great Britain, the Colonies, or foreign countries—the terms including not only the colonial and foreign trade, but also the Cross-Channel trade between Great Britain and Ireland.

From the year 1904, the first year for which records of Irish trade are available, up to the beginning of the war, there was a gradual increase in the prices of Irish imports and exports ; from

the beginning of the war the rise in prices became immensely greater. Accordingly, in order to eliminate the effect of the change in prices, and to give an indication of the change in the total quantities imported into and exported from Ireland, the values of imports and exports shown in the following table are estimated, not only at the prices in the year of actual shipment, but also at the corresponding prices in 1904.

TOTAL IRISH IMPORT AND EXPORT TRADE.*

(Values expressed to the nearest thousand pounds).

Year.	Imports.		Exports.		Excess of Imports over Exports.	
	Value at prices in the year of importation.	Value at 1904 prices.	Value at prices in the year of exportation.	Value at 1904 prices.	Value at prices in the year of shipment.	Value at 1904 prices.

† Value of exports greater than value of imports.

CHANGES IN THE VOLUME OF IRISH IMPORTS AND EXPORTS.

It will be seen from the above table that although the total values of imports and exports measured at war prices increased enormously in the last few years the actual quantities imported and exported (as indicated by the values at 1904 prices) are much below the pre-war levels.

The volume of the import trade (measured at 1904 prices) which increased from £55,345,000 in 1904 to £62,986,000 in 1913 fell to £44,167,000 in 1918, but rose to £50,081,000 in 1919.

* Some of the figures for 1918 and for previous years which appear in this Report are slightly different from those published in previous Reports, but the revisions are few and unimportant.

The value of the export trade (measured at 1904 prices) which increased from £49,815,000 in 1904 to £56,966,000 in 1910 remained at much the same level in 1911 and 1912 (in which years exports of cattle were abnormally low owing to the lack of keep in Great Britain in the very hot summer of 1911 and to shipping restrictions in 1912 on account of Foot and Mouth Disease). The volume of exports rose abruptly in 1913 and 1914 chiefly owing to abnormal exports of cattle in both years (in 1913 owing to the glut after the restrictions of 1912, and in 1914 owing to the extremely heavy demand in Great Britain in the first five war months). The exports in 1913 and 1914 were accordingly abnormally high. Most of the decline in the volume of export trade which can be attributed to the war took place in the year 1918. The exports at 1904 prices fell from £58,372,000 in 1915 to £50,569,000 in 1918, but rose to £51,175,000 in 1919.

Changes in the Prices of Irish Imports and Exports.

The imports in 1919 when valued at 1904 prices amounted to only £50,081,000, whereas when valued at 1919 prices they amounted to £158,716,000; accordingly the general level of prices of the commodities imported in 1919 increased from 1904 to 1919 by 216·9 per cent. Similarly the general level of prices of the commodities imported in 1918 increased from 1904 to 1918 by 185·3 per cent. In this manner the following table has been constructed, but when analysing the figures it should be carefully borne in mind that the relative importance attached to the price of a particular commodity (*e.g.* eggs) in a particular year (*e.g.* 1918) depends on the quantity shipped in that year, and accordingly the "weighting" of commodities varies from year to year.

Increases in Prices of Imports and Exports.

Prices of Commodities Shipped in			Imports.	Exports.
			Per cent.	Per cent.
1905	increased from 1904	to 1905 by	0·2*	1·1
1906	,,	1906 by	2·2	4·8
1907	,,	1907 by	6·7	8·6
1908	,,	1908 by	5·9	6·9
1909	,,	1909 by	9·5	11·3
1910	,,	1910 by	11·4	15·7
1911	,,	1911 by	12·1	15·5
1912	,,	1912 by	17·0	18·4
1913	,,	1913 by	18·2	21·8
1914	,,	1914 by	21·2	22·2
1915	,,	1915 by	47·6	44·7
1916	,,	1916 by	84·6	82·5
1917	,,	1917 by	139·4	135·9
1918	,,	1918 by	185·3	202·4
1919	,,	1919 by	216·9	244·0

* Decrease.

It will be seen that the prices of exports rose more than the prices of imports from 1904 to 1914 ; the prices of imports had increased somewhat more than exports in 1915, 1916 and 1917, but in 1918 and 1919 the increase from 1904 in the prices of exports was greater than in the prices of imports. The prices of exports in 1919 showed an increase of 244·0 per cent. over 1904, while the prices of imports showed an increase of 216·9 per cent.

Favourable Change in the Balance of Trade.

The serious fall from the pre-war levels in the volume of imports and exports has some favourable aspects :—

(1) The decrease in imports was made good to some extent by increased Irish production. For instance, the effect of the large decrease in the imports of maize and other feeding stuffs was largely counterbalanced by increased production of Irish substitutes (oats, etc.), and the decrease of the imports of flax was to some extent made good by increased home production. The decrease in imports of bacon, butter, etc., resulted in a larger consumption and smaller export of the Irish articles. In other directions, however, Irish substitutes were not available and the decreased importation (*e.g.* sugar) led to a fully equivalent decrease in consumption.

(2) From 1915 to 1919, while the volume of imports fell by 15·3 per cent., the volume of exports fell only 12 per cent. In each year from 1904 to 1913 the volume of the imports (measured at 1904 prices) exceeded the exports, but in 1914, 1916, 1917, 1918 and 1919 the volume of the exports was greater than the imports. Whereas in 1904 the volume of the imports exceeded the export by 11·1 per cent., in 1919 the exports (measured at 1904 prices) exceeded the imports by 2·2 per cent.

(3) While from 1904 to 1919 the prices of the commodities imported in 1919 increased by 216·9 per cent., the prices of the exports increased by 244·0 per cent.

The combined effect of the changes (2) and (3) has been to bring about a considerable change in the balance of trade. While the total value of the imports in 1904 exceeded the total value of the exports in that year by £5,530,000 or 11·1 per cent., the total value of the exports in 1919 (at 1919 prices) exceeded the value of the imports by £17,316,000, or 10·9 per cent.

The following tables give a somewhat more definite idea of the changes which have taken place in Irish trade from 1917 to 1919. The values are expressed to the nearest thousand pounds :—

—	Value at prices in the year of shipment.			Value at 1904 prices.		
	1917.	1918.	1919,	1917.	1918.	1919.
	1,000 £'s.	1,000 £'s.	1,000 £'s.	1,000 £'s.	1,000 £'s.	1,000 £'s.
Farm Produce, Food and Drink.						
Imports ..	41,419	34,429	55,245	17,101	13,285	20,222
Exports ..	71,801	78,254	93,709	31,187	28,342	32,103
Exports minus Imports	30,382	43,825	38,464	14,086	15,057	11,881
Raw Materials.						
Imports ..	21,392	21,689	24,433	8,029	6,663	6,966
Exports ..	5,302	5,369	6,777	2,516	2,049	2,044
Imports minus Exports	16,090	16,320	17,656	5,513	4,614	4,922
Manufactured Goods.						
Imports ..	56,370	69,898	79,038	24,655	24,219	22,893
Exports ..	56,702	69,308	75,546	23,012	20,178	17,028
Imports minus Exports	332	590	3,492	1,643	4,041	5,865
Total Imports ..	119,181	126,016	158,716	49,785	44,167	50,081
Total Exports ..	133,805	152,931	176,032	56,715	50,569	51,175
Exports minus Imports	14,624	26,915	17,316	6,930	6,402	1,094

Reading across the first three columns of the above table it will be observed that the value of both the imports and of the exports of each of the three groups of commodities increased from 1917 to 1918 and from 1918 to 1919, with the single exception of the imports of Farm Produce, Food and Drink, which decreased in value from 1917 to 1918. On the other hand, reading across the last three columns it will be seen that the volume of both the imports and the exports of each of the three groups decreased from 1917 to 1918, but from 1918 to 1919 while the volume of imports and exports in raw materials remained much the same, and a further decline took place in the volume of trade in manufactured goods, there was a very considerable increase in the volume of both the import and export trade of Farm Produce, Food and Drink.

In tables presented later it will be seen that in each year from 1904 to 1919 the value of the imports of Farm Produce, Food and Drink, was less than the value of the exports, that the value of the imports of raw materials, was greater than the value of the exports, and that the value of the imports of manufactured goods, with the exception of the year 1917, was greater than the value of the exports.

The following table shows the relative importance of the trade in each of the above three groups of commodities ; the value of the

trade in each group is expressed as a percentage of the total value of imports and exports respectively :—

	Valued at prices in the year of shipment.			Valued at 1904 prices.		
	1917.	1918.	1919.	1917.	1918.	1919.
Imports.	Per cent.	Per cent.	Per cent.	Per cent.	Per cent.	Per cent.
Farm Produce, Food and Drink ..	34	27	35	34	30	40
Raw Materials ..	18	17	15	16	15	14
Manufactured Goods	48	56	50	50	55	46
Total ..	100	100	100	100	100	100
Exports.						
Farm Produce, Food and Drink ..	54	51	53	55	56	63
Raw Materials ..	4	4	4	4	4	4
Manufactured Goods	42	45	43	41	40	33
Total ..	100	100	100	100	100	100

The value of Farm Produce, Food and Drink Stuffs, imported accounted for only 27 per cent. of the total imports in 1918, but for 35 per cent. of the total imports in 1919. The exports of this group accounted for 51 per cent. of the total exports in 1918, and for 53 per cent. in 1919.

The value of the imports of manufactured goods made up 56 per cent. of the total imports in 1918, but only 50 per cent. in 1919 ; the value of the exports of this group accounted for 45 per cent. of the total exports in 1918, and for 43 per cent. in 1919.

I.—FARM PRODUCE, FOOD AND DRINK.

In the following table, which shows the total Irish trade in this group of commodities, the values are expressed to the nearest thousand pounds.

When scrutinising the figures it should be borne in mind that the abnormally large exports in 1913 and 1914 were not due either to increased production or decreased consumption in Ireland. They were occasioned in both years by exceptionally heavy shipments of cattle which, in the ordinary course, would have been exported in other years. Many of the cattle exported in 1913 would have been shipped in 1912 but for the restrictions on exports in that year on account of foot and mouth disease. Exceptionally large numbers of cattle were exported in the war months of 1914 which, in normal times, would not have been exported until 1915.

Irish Trade in Farm Produce, Food and Drink.

Year.	Values estimated at prices in the year of shipment.			Values estimated at 1904 prices.		
	Imports.	Exports.	Excess of Exports over Imports.	Imports.	Exports.	Excess of Exports over Imports.

1917 ...	41,419	71,801	30,382	17,101	31,187	14,086
1918 ...	34,429	78,254	43,825	13,285	28,342	15,057
1919 ...	55,245	93,709	38,464	20,222	32,103	11,881

The above table shows that the value of the exports of Farm Produce, Food and Drink, was greater than the value of the imports in each year from 1904 to 1919. The value of imports, measured at 1904 prices, rose to a maximum in 1914 ; this value amounted to £22,997,000. This fell to £13,285,000 in 1918, a decrease of 42 per cent., while in 1919 it rose again to £20,222,000, a decrease on 1914 of 12 per cent., but an increase on 1918 of 52 per cent. The volume of exports as well as the volume of imports were at their lowest in 1918 ; the volume of exports (measured at 1904 prices) increased from 1918 to 1919 by 13 per cent. The prices of imports in 1919 of this group increased from 1904 to 1919 by 173 per cent. ; the prices of exports in 1919 increased from 1904 to 1919 by 192 per cent. The following table indicates the changes in volume from 1917 to 1919 in some detail :—

Farm Produce, Food and Drink, at 1904 Prices.

	Imports.			Exports.		
	1917 at 1904 prices.	1918 at 1904 prices.	1919 at 1904 prices.	1917 at 1904 prices.	1918 at 1904 prices.	1919 at 1904 prices.

Total Farm Produce, Food and Drink	17,101,035	13,284,715	20,222,169	31,186,548	28,342,230	32,103,442

Live Stock.—The decrease in exports in 1918 and the recovery in 1919 was principally due to abnormally low shipments of cattle in 1918, the number exported for the year being only 720,112.

Dead Meat.—The pre-war average import of bacon and hams was well maintained up to the year 1916, when it amounted to 43,408 tons, but fell to 33,799 tons in 1917, and to 11,438 tons in 1918, increasing again to 18,528 tons in 1919. The export of bacon and hams in the years 1909-13 averaged about 55,000 tons; this fell to 48,372 tons in 1917, and to 20,571 tons in 1918, but increased to 25,944 tons in 1919. Part of the decrease in the exports in the last three years as compared with pre-war years was due to the increased consumption of the Irish product in Ireland, but much of the decrease was due to the serious falling off in production; the number of pigs in Ireland fell after the very bad potato season of 1916 from 1,290,289 on 1st June, 1916, to 947,472 in 1917, with only a slight recovery to 974,385 in 1918, and to 977,963 in 1919.

Eggs, Butter, etc.—Exports of butter fell from a maximum of 42,780 tons in 1914, to 33,767 tons in 1917, to 22,796 tons in 1918, and to 17,336 tons in 1919, a quantity less than half the pre-war average; exports of margarine which reached the pre-war maximum of 3,659 tons in 1911 increased rapidly during the war period and amounted in 1917 to 12,219 tons, falling again in 1918 to 6,318 tons, but increasing to 6,623 tons in 1919; exports of cheese, which only amounted in 1912 to 513 tons, the highest pre-war figure, increased to 904 tons in 1917, to 6,823 tons in 1918, and to 14,296 tons in 1919; this increase in cheese exports compensated to a considerable extent for the decline in butter exports. The export of eggs which averaged slightly less than 6,500,000 Great Hundreds in the period 1909-13, increased to 7,265,041 Great Hundreds in 1917, to 8,769,698 Great Hundreds in 1918, and to 9,150,491 Great Hundreds in 1919; exports of poultry which averaged about 15,000 tons in pre-war years fell to 13,178 tons in 1917, but increased to 14,731 tons in 1918, and to 14,956 tons in 1919.

Fish.—There was a slight increase in the imports in 1919 as compared with 1918, but exports again declined.

Fruit and Vegetables.—The imports of fruit of all kinds which reached a maximum of 42,113 tons in 1913, decreased to 16,066 tons in 1917, to 6,553 tons in 1918, but increased to 33,802 tons in 1919; exports of fruit fluctuated very much even in pre-war years, when a maximum of 6,294 tons was reached in 1910; they amounted to 5,397 tons in 1917, to 12,533 tons in 1918, and to 13,632 tons in 1919 a figure more than double the highest pre-war record. The export of potatoes which in 1914 amounted to 187,922 tons, a record figure at that time, fell to 108,958 tons in 1917, but increased to 343,099 tons in 1918, a figure almost three times the pre-war average, but decreased slightly in 1919 to 301,271 tons.

Grains, etc., and Feeding Stuffs.—The imports of wheat which averaged about 400,000 tons in the years 1909-13, fell to 310, 325 tons in 1917, to 259,676 tons in 1918, but increased to 412,460 tons in 1919 ; wheat flour imports on the other hand showed an increase from a pre-war record of 279,811 tons in 1905, to 280,362 tons in 1918, and to 311,346 tons in 1919, the highest figure ever recorded. The imports of barley which reached a maximum pre-war figure of 76,086 tons in 1913, fell to 70,611 tons in 1917, to 53,773 tons in 1918, but increased to 100,755 tons in 1919, the highest figure ever recorded. Imports of malt which averaged about 40,000 tons in normal years and reached a maximum of 60,847 tons in 1914, fell to 12,219 tons in 1917, to 1,809 tons in 1918, but increased to 6,021 tons in 1919. The imports of rye, which amounted in 1905 to 23,196 tons, a pre-war maximum, increased to 28,941 tons in 1917, but fell to 25,517 tons in 1918, and to 19,687 tons in 1919, the latter figure being roughly equivalent to the pre-war average. The imports of maize decreased from a pre-war average of 600,000 to 700,000 tons to 371,187 tons in 1917, and to 107,747 tons in 1918, but increased to 229,235 tons in 1919. Imports of rice which reached a pre-war record of 4,475 tons in 1913, increased to 11,872 tons in 1918, but fell again to 4,085 tons in 1919. Imports of bran and pollard decreased from an average of about 60,000 tons in the years 1909-13 to 45,265 tons in 1917, to 2,074 tons in 1918, but increased to 17,651 tons in 1919. The imports of oilcake decreased from a pre-war level of about 60,000 tons to 38,299 tons in 1917, and to 20,794 tons in 1918, but rose to 47,596 tons in 1919. The export of oats amounted in 1916 to 102,281 tons, decreased to 69,322 tons in 1917, rose to 83,848 tons in 1918, and to 162,055 tons in 1919, or more than twice the pre-war average. The exports of hay and straw which reached the high maximum of 80,380 tons in 1917 fell to 42,171 tons in 1919, a quantity which, however, was far above the pre-war average.

Tea, Coffee, etc.—The imports of tea which in normal years averaged about 33,000,000 lbs., amounted in 1917 to 33,410,832 lbs., to 36,231,104 lbs. in 1918, and to the abnormal figure of 55,624,688 lbs. in 1919 ; imports of cocoa, which reached a record of 7,434,224 lbs. in 1915, decreased to 4,829,664 lbs. in 1917, but increased again to 6,154,960 lbs. in 1918, and to 6,818,336 lbs. in 1919, the latter figure being very much greater than the average pre-war import ; imports of sugar which, in 1909 amounted to 142,892 tons fell to 83,301 tons in 1917, to 74,128 tons in 1918, but increased to 111,310 tons in 1919.

Tobacco and Snuff.—Imports of unmanufactured tobacco, which averaged about 13,000,000 lbs., in the period 1909-13, decreased to 4,466,198 lbs. in 1917, increased again to 11,391,669 lbs, in 1918, and to the abnormal figure of 29,360,240 lbs. in 1919. Imports of manufactured tobacco increased steadily in the years before the war, amounting in 1913 to 4,687,116 lbs., increased to

5,349,960 lbs. in 1917, fell to 3,957,660 lbs. in 1918, and increased again to 6,169,128 lbs. in 1919, a record figure. The exports of manufactured tobacco which averaged less than 8,000,000 lbs. in the period 1909-13 reached a record of 8,922,810 lbs. in 1915, fell to 8,600,939 in 1917, to 7,670,169 in 1918, but increased to 8,420,916 lbs. in 1919.

Spirits, Beer, Wine, etc.—The imports of foreign spirits which averaged about 500,000 proof gallons in the five years 1909-13 reached a record figure of 770,101 proof gallons in 1916, fell to 612,022 proof gallons in 1917, to 220,688 proof gallons in 1918, but increased to 718,025 proof gallons in 1919. The exports of home-made spirits fell from a pre-war average of about 7,500,000 proof gallons to 2,625,826 proof gallons in 1917 ; this increased to 3,120,171 proof gallons in 1918, and to 7,029,721 proof gallons in 1919. The exports of industrial spirits rose from 1,159,903 proof gallons in 1915, to 11,152,112 proof gallons in 1917, but decreased to 8,646,690 proof gallons in 1918, and to 1,718,101 proof gallons in 1919. The transition from the manufacture of potable spirits to industrial spirits and vice versa of course affected the figures representing exports of " Farm Produce, Food, and Drink." The imports of ale and beer fell from a pre-war average of about 170,000 barrels to 70,837 barrels in 1917, and to 49,603 barrels in 1918, but increased to 60,084 barrels in 1919—a quantity only about one-third of the pre-war imports. The imports of wine averaged about 1,400,000 gallons before the war, but fell to 749,470 gallons in 1917, increased to 850,525 gallons in 1918, and to 2,524,094 gallons in 1919, a quantity nearly double the pre-war imports. The exports of aerated and mineral waters dropped from a pre-war average of about 300,000 cwts. to 158,260 cwts, in 1917, and to 116,971 cwts. in 1918, but rose to 136,461 cwts. in 1919, *i.e.*, to less than half the pre-war exports.

An idea of the importance to Great Britain of the Irish exports of Farm Produce, Food and Drink, will be obtained from the following table, which, in addition to showing the estimated values of the Irish exports, also gives the values of the imports into the United Kingdom of this group from the principal Foreign Countries and British Possessions. The values are expressed to the nearest thousand pounds.

FARM PRODUCE, FOOD AND DRINK.

When considering the above table it should be remembered that the exports from Ireland are valued free on board ship at the Irish ports and do not include insurance or freight, whereas the cost of insurance and freight are included in the values of exports shown for the other countries.

The above figures contrast the total exports from Ireland with the total imports of farm produce, food and drink stuffs from the principal countries of supply into the United Kingdom (not into Great Britain). Official figures are not available, but fairly accurate estimates can be made, which would give a direct comparison between Ireland and other countries as suppliers to Great Britain of this group of commodities. To make the comparison exact, the figures for Ireland should be reduced by the values of the Irish produce consumed abroad, and the figures for other countries should be reduced by the values of the goods consumed in Ireland which are included in the totals for the United Kingdom. The deductions would be comparatively small, and the figures shown in the last table, and in the following paragraphs, indicate with sufficient accuracy the importance of the part played by Ireland as a supplier of food stuffs to Great Britain.

Attention is directed to the tables in Appendix I. of this Report which show for the year 1919 the quantities and values of each of the chief articles of agricultural produce imported into the United Kingdom from foreign Countries and British Possessions and the corresponding exports from Ireland. The following are some of the more important facts disclosed by the Appendix.

The value of *Cattle* and *Beef* exported from Ireland to Great Britain in 1919 was £27,468,000 and exceeded in value the imports from other countries except Argentina, valued at £27,796,000. The imports from Uruguay amounted to £6,874,000 and from the United States of America to £6,548,000.

The Irish export of *Sheep* and *Mutton*, valued in 1919 at £2,145,000 was the fourth greatest, being exceeded by the imports from New Zealand, £8,644,000, Argentina, £4,978,000, and Australia, £4,004,000.

As regards the total value of *Bacon*, *hams*, *pork*, and *live pigs*, Ireland came third on the list with a value amounting to £7,631,000 as compared with £67,629,000 from the United States of America, and £19,534,000 from Canada.

The export of *Poultry* from Ireland was much greater than that from any other country to the United Kingdom, Ireland exporting to Great Britain poultry to the value of £2,757,000, while the largest value of imports from other countries to the United Kingdom was from the United States, £1,044,000.

The Irish export of *Butter*, 347,000 cwts., valued at £4,902,000, was the second greatest in quantity and value; the export from

Australia to the United Kingdom amounted to 417,000 cwts., valued at £5,251,000 ; that from New Zealand came third, value £3,910,000.

The Irish export of *Eggs* far exceeded, both as regards quantity and value, the imports from any other country, amounting to 9,150,000 gt. hunds., valued at £15,480,000 ; the imports into the United Kingdom from Denmark being the next largest in quantity amounting to 1,638,000 gt. hunds., valued at £2,776,000. The imports from Canada were 1,477,000 gt. hunds., valued at £2,230,000.

The Irish export of *Potatoes*, which amounted to 301,271 tons, valued at £2,260,000, was larger than the import of potatoes into Great Britain from any other country. The quantity imported from the Channel Islands though amounting to only 37,248 tons, was valued at £1,327,000, as their trade is chiefly in early potatoes.

As regards *Oats*, the export from Ireland (3,241,000 cwts.), was greater than the imports from any other country, the United States (2,956,000 cwts.), came next, and Argentina (2,070,000 cwts.) third.

II.—RAW MATERIALS.

In the following table which shows the total Irish trade in this group of commodities the values are expressed to the nearest thousand pounds.

Irish Trade in Raw Materials.

Year	Values estimated at prices in year of shipment.			Values estimated at 1904 prices.		
	Imports.	Exports.	Excess of Imports over Exports.	Imports.	Exports.	Excess of Imports over Exports.
	1,000 £'s.	1,000 £'s.	1,000 £'s.	1,000 £'s.	1,000 £'s.	1,000 £'s.
1904 ...	9,797	3,773	6,024	9,797	3,773	6,024
1905 ...	9,175	3,604	5,571	10,036	3,919	6,117
1906 ...	9,260	3,656	5,604	9,497	3,506	5,991
1907 ...	10,553	4,258	6,295	10,795	4,138	6,657
1908 ...	9,911	4,197	5,714	10,244	4,409	5,835
1909 ...	10,343	4,675	5,668	10,706	4,402	6,304
1910 ...	10,646	3,995	6,651	10,248	3,411	6,837
1911 ...	10,590	3,903	6,687	10,025	3,410	6,615
1912 ...	11,728	4,253	7,475	10,866	3,785	7,081
1913 ...	12,114	4,279	7,835	10,681	3,724	6,957
1914 ...	11,162	4,274	6,888	9,520	3,548	5,972
1915 ...	14,001	3,856	10,145	8,957	2,919	6,038
1916 ...	17,794	4,588	13,206	8,891	2,728	6,163
1917 ...	21,392	5,302	16,090	8,029	2,516	5,513
1918 ...	21,689	5,369	16,320	6,663	2,049	4,614
1919 ...	24,433	6,777	17,656	6,966	2,044	4,922

The value of the imports of raw materials was considerably in excess of the exports in each year from 1904 to 1919. The raw materials imported in 1919 increased in price from 1904 to 1919 by 251 per cent., the raw materials exported in 1919 increased in price from 1904 to 1919 by 232 per cent.

The volume of imports measured at 1904 prices decreased from 1917 to 1919 by 13 per cent., and of the exports by 19 per cent.

The following table gives some details of the changes in this interval :—

RAW MATERIALS AT 1904 PRICES.

—	Imports.			Exports.		
	1917 at 1904 prices.	1918 at 1904 prices.	1919 at 1904 prices.	1917 at 1904 prices.	1918 at 1904 prices.	1919 at 1904 prices.

Wood, Hewn and Sawn.—The imports of "timber" had decreased from an average of about 85,000 loads in the three years, 1911, 1912, and 1913, to 13,836 loads in 1917. It increased to 20,787 loads in 1918, and to 51,273 loads in 1919. The exports of "rough timber," during the war were much the same as before the war. They increased from 121,637 loads in 1917 to 137,922 loads in 1918, but decreased to 92,446 loads in 1919. The exports of "pitwood" during the war were above the pre-war average. They increased from 28,904 loads in 1917 to 47,004 loads in 1918, but decreased to 17,237 loads in 1919. The imports of boards and deals had decreased from a pre-war average of over 200,000 loads to 38,926 loads in 1917. This increased to 51,122 loads in 1918 and to 116,606 loads in 1919. The imports of corks and cork-wood in 1917 was 1,780 loads. This was above the average for years prior to 1912, but below the imports in each year from 1912 to 1916 inclusive. It increased to 3,814 loads in 1918 and to 3,864 loads in 1919, the highest import ever recorded.

Stones, Ores, etc.—The imports of slates, which were over 28,000 tons in 1911 and 1912 had fallen to 12,372 tons in 1917, but increased to 20,032 tons in 1918 and fell to 13,310 tons in 1919. Imports of sulphur ore which before the war averaged over 40,000 tons, and in the period 1914 to 1918 over 60,000 tons annually fell to 30,931 tons in 1919. Imports of salt during and after the war were much the same as before the war. The quantity imported in 1917 was 32,903 tons. This increased to 39,457 tons in 1918, but fell to 31,523 tons in 1919. The imports of pitch which in the period 1910 to 1913 amounted to an annual average of about 200,000 cwts. fell very considerably during the war period, being 150,156 cwts. in 1917, falling again in 1918 to 114,081 cwts., and to 90,719 cwts. in 1919. The exports of pitch which in pre-war years amounted to over 100,000 cwts., dropped to 5,256 cwts. in 1917, increased in 1918 to 50,169 cwts., but fell again in 1919 to 24,385 cwts. The imports of tar which were 57,954 cwts. in 1917, fell to 21,111 cwts. in 1918 but increased again to 49,903 cwts. in 1919. Exports of limestone, which in pre-war years averaged 125,000 tons fell to 43,308 tons in 1917 to 35,766 tons in 1918 but increased in 1919 to 41,445 tons. The exports of marble, granite, etc., which in pre-war years averaged 14,000 tons fell to 5,146 tons in 1917, to 2,051 tons in 1918, and to 775 tons in 1919. The exports of burnt ore, which amounted to 29,888 tons in 1917, or much the same as the pre-war level, increased to 45,328 tons in 1918, but fell again in 1919 to 27,728 tons.

Fats.—The imports of oleo, which were 145,610 cwts. in 1917 compared with an average of 14,000 cwts. in the five years 1909-13, increased to 189,659 cwts. in 1918, but fell again to 128,501 cwts. in 1919. The imports of lard which had dropped to an average of about 50,000 cwts. in the three years preceding the war increased to 97,937 cwts in 1917, fell to 52,801 cwts. in 1918, but rose again in 1919 to 64,517 cwts. The exports of lard which were as high as 162,310 cwts. in 1909 had fallen to 94,583 cwts. in 1914, decreased in 1917 to 53,459 cwts., to 19,232 cwts. in 1918, but rose again to 55,351 cwts. in 1919. The imports of tallow, which were 59,905 cwts. in 1917, a much higher figure than in any previous year, fell to 13,991 cwts. in 1918, but increased in 1919 to 20,595 cwts. The exports of grease in the years immediately prior to the war averaged about 70,000 cwts. annually but fell to 50,286 cwts. in 1917, to 31,989 cwts. in 1918, and to 30,393 cwts. in 1919.

Hides, Wool, etc.—The export of wool was 14,597,856 lbs. in 1917, about equivalent to the pre-war average, this decreased to 12,974,752 lbs. in 1918, and to 11,595,808 lbs. in 1919. The imports of wool which reached a maximum of 5,475,456 lbs. in 1915 had decreased in 1917 to 2,727,536 lbs. to 1,959,216 lbs. in 1918, increased again to 4,151,840 lbs. in 1919, a figure almost representing a return to normal conditions. The imports of bristles in 1917, which was 779,744 lbs., a figure considerably in excess of the highest previous record declined to 543,088 lbs. in 1918, but

increased again to 760,816 lbs. in 1919. The imports of curled hair fell from 13,201 cwts. in 1917, to 6,452 cwts. in 1918, but increased again to 10,019 cwts. in 1919, the latter figure being a considerable increase on the pre-war average which was about 7,000 cwts. The export of feathers increased from 18,262 cwts. in 1917 to 19,262 cwts. in 1918, but fell again to 17,869 cwts. in 1919, the average of recent years being practically the same as the pre-war level. Hides and skins, which reached a maximum export of 243,880 cwts. in the year 1914 as compared with a pre-war average of just over 200,000 cwts., fell to 170,470 cwts. in 1917, increased in 1918 to 222,307 cwts, but fell again in 1919 to 208,374 cwts.

Flax.—The imports of flax which in pre-war times averaged almost 40,000 tons had declined in 1917 to 28,735 tons to 6,442 tons in 1918, but showed a slight recovery to 9,592 tons in 1919. Exports of flax which reached a maximum of 5,131 tons in 1915 decreased to 2,971 tons in 1917, to 614 tons in 1918, but rose again to 1,765 tons in 1919.

Other Textile Raw Materials.—Imports of raw cotton which in 1912, 1913 and 1914 averaged 300,000 cwts. fell to 50,062 cwts. in 1917, to 16,220 cwts. in 1918, but increased in 1919 to 33,180 cwts. Re-exports of raw cotton, which were very large before the war had fallen as low as 9,898 cwts. in 1919. Imports of tow and codilla which averaged about 6,000 tons, per annum before the war amounted to 10,005 tons in 1917, the highest figure recorded ; fell to 4,034 tons in 1918, and to 2,362 tons in 1919. Imports of hemp increased from 20,920 tons in 1917, to 22,271 tons in 1918, the largest figure recorded, but decreased in 1919 to 15,016 tons, a figure which was still slightly higher than the average of normal years. Imports of cotton waste which averaged less than 2,000,000 lbs. per annum before the war had increased to 2,406,320 lbs. in 1917 and reached a maximum of 2,573,424 lbs. in 1918, but decreased to 1,436,064 lbs. in 1919. Exports of waste (flax, hemp and tow) in 1917 amounted to 230,566 cwts. the largest export on record, fell to 209,422 cwts. in 1918 and to 138,354 cwts. in 1919 ; exports of rags increased from 9,805 tons in 1917, to 10,573 in 1918, a record figure, but decreased to 6,117 tons in 1919, representing normal pre-war exports.

Other Materials.—Imports of flax seed increased from 140,558 cwts. in 1917, to 155,428 cwts. in 1918, and to 177,674 cwts. in 1919, the highest figure recorded, and an increase of practically 50 per cent. on the pre-war level. The imports of wood pulp, which had fallen to the low figure of 4,229 tons in 1917 increased to 7,212 tons in 1918 and to 10,334 tons in 1919, or almost to the level of normal years. Exports of plants and bulbs declined from a pre-war average of more than 8,000 cwts. to 4,880 cwts. in 1917, dropped again to 3,726 cwts. in 1918, but increased in 1919 to 3,959 cwts.

III.—MANUFACTURED GOODS.

Before dealing with the trade in this group of articles it should be stated that while the records of the trade in the two previous groups are on an unsatisfactory voluntary basis, the records for this group are extremely unsatisfactory. It is with regard to this group that the necessity for compulsory returns is most urgent.

In the following table, which shows the Irish trade in manufactured goods, the values are expressed to the nearest thousand pounds :—

IRISH TRADE IN MANUFACTURED GOODS.

Year.	Values estimated at prices in year of shipment.			Values estimated at 1904 prices.		
	Imports.	Exports.	Excess of Imports over Exports.	Imports.	Exports.	Excess of Imports. over Exports.
	1,000 £'s.	1,000 £'s.	1,000 £'s.	1,000 £'s.	1,000 £'s.	1,000 £'s.

1919 ...	79,038	75,546	3,492	22,893	17,028	5,865

† Value of exports greater than value of imports.

It will be observed that in each year from 1904 to 1916 the value of the imports of manufactured goods was substantially greater than the exports, but in 1917 and 1918 the difference between the values of imports and exports was only very slight. The manufactured goods imported in 1919 increased in price from 1904 to 1919 by 245 per cent., while the manufactured goods exported in 1919 increased in price from 1904 to 1919 by 344 per cent.

From 1917 to 1919 the volume of imports of manufactured goods as measured at 1904 prices decreased by 7·1 per cent., and the

volume of manufactured goods exported decreased by 26 per cent. The following table gives some details of these changes :—

Manufactured Goods at 1904 Prices.

	Imports.			Exports.		
	1917 at 1904 prices.	1918 at 1904 prices.	1919 at 1904 prices.	1917 at 1904 prices.	1918 at 1904 prices.	1919 at 1904 prices.

Yarns.—Imports of cotton yarn which averaged about 14,000,000 lbs. in the years 1909-13 increased to a maximum of 28,283,472 lbs. in 1916 but fell again to 23,829,008 lbs. in 1917, to 23,472,288 lbs. in 1918, and to 15,677,088 lbs. in 1919. Imports of linen yarn which reached the high maximum in 1912 of 26,737,424 lbs., dropped to 4,294,864 lbs. in 1917, to 3,850,672 lbs. in 1918, and to 2,466,128 lbs. in 1919. The exports of linen yarn remained fairly steady until 1917 amounting to 24,014,480 lbs. in that year compared with 24,713,696 lbs. in 1910, the largest figure recorded ; there was, however, a very great decrease to 7,989,408 lbs. in 1918 but an increase again in 1919 to 14,272,008 lbs. Imports of thread which averaged about 1,500,000 lbs. in the five years 1909-13, fell to 1,040,928 lbs. in 1918 and to 760,032 lbs. in 1919, while the exports of thread which reached a maximum of 5,743,808 lbs. in 1915 remained fairly steady in 1916 and 1917, fell to 3,524,864 lbs. in 1918 and increased again to 3,778,320 lbs. in 1919. Imports of jute yarn which amounted to 2,775,472 lbs. in 1913—the highest figure ever recorded—fell to 2,132,920 lbs. in 1917, to 1,672,944 lbs. in 1918, and to 775,600 lbs. in 1919, the latter figure being about half a normal pre-war import. Exports of rope, cordage and twine amounted to 292,796 cwts. in 1917—the highest figure ever recorded —fell slightly to 278,788 cwts. in 1918 and to 225,223 cwts. in 1919, or about the equivalent of the normal pre-war export.

Piece Goods, Drapery, etc.—The decrease in the imports of this group was due to the falling off in the imports of cotton goods, woollen goods, and "Drapery." The imports of cotton goods which reached a record figure of 549,582 cwts. in 1916, fell to 383,256 cwts. in 1919; woollen goods fell from 97,805 cwts. in 1918—a record figure—to 52,916 cwts. in 1919, a figure much the same as the pre-war average, and "drapery" from 173,541 cwts. in 1917 to 118,491 cwts. in 1919, a figure somewhat less than half the pre-war average. The decrease in the exports of this group was principally due to the smaller shipments of linen goods which decreased from 1,048,958 cwts. in 1917 to 926,823 cwts. in 1918, and to 600,162 cwts. in 1919, the latter figure being roughly equal to one-half the average pre-war export.

Leather Goods and India Rubber Goods.—The imports of leather which averaged about 70,000 cwts. in normal years fell to 51,208 cwts. in 1917, to 49,823 cwts. in 1918, but increased again to 71,137 cwts. in 1919. The imports of boots and shoes which had dropped to 130,150 cwts. in 1917, increased to 153,286 cwts. in 1918 and to 156,066 cwts. in 1919, the latter figure approximating closely to normal pre-war imports. Imports of india rubber goods increased steadily before and during the war period and in 1919 amounted to 37,557 cwts., a quantity double the pre-war average.

Metal Castings.—Most of the decline in the imports of this group was due to a decrease in the imports of "Steel," which fell from an average of over 70,000 tons in the years 1909-13, to 60,175 tons in 1917, to 19,249 tons in 1918, and to 8,364 tons in 1919. On the other hand, the imports of bar and wrought iron, although falling from a pre-war average of over 60,000 tons to 41,508 tons in 1917, increased to 73,682 tons in 1918 and to 85,873 tons in 1919—the highest import on record. Imports of plates and sheets which averaged about 30,000 tons from 1909 to 1913, fell to 28,589 tons in 1917, but increased in 1918 to the record figure of 84,110 tons, falling again in 1919 to 75,063 tons. Imports of bolts, rivets, and nuts were much the same in 1919 as in 1918 and slightly above the pre-war average. Gutters, pipes, etc., however, decreased from an average of 45,000 cwts in 1909-13 to 9,520 cwts in 1917 and although there was an increase to 11,588 cwts in 1918, fell again in 1919 to 9,600 cwts.

Machinery, Ships, etc.—The increase in the value of the imports of this group in 1919 is mostly due to an increase in the estimated value of motor cars imported, from £100,000 in 1917, to £114,000 in 1918, and to £895,000 in 1919. Imports of machinery described as "Agricultural" reached a maximum of 3,351 tons in 1917—a figure double the pre-war import—but fell in 1918 to 1,939 tons, and to 1,421 tons in 1919. Imports of agricultural implements also reached a maximum in 1917, 172,771 cwts. being imported in that year—a quantity more than twice the pre-war average, but in 1918

there was a decline to 135,008 cwts., and to 105,568 cwts. in 1919, the latter figure being still well above the pre-war average. Imports of machinery described as "textile" fell from a pre-war average of about 800 tons to 667 tons in 1917, to 597 tons in 1918, but increased to 739 tons in 1919. The imports of "machinery unclassified" which were about 23,000 tons in pre-war years, fell to 18,243 tons in 1917, increased to 23,318 tons in 1918, and reached in 1919 the record figure of 28,887 tons. Exports of "machinery unclassified" which amounted to a pre-war average of 11,000 tons annually, decreased slightly to 10,444 tons and 10,732 tons in 1917 and 1918 respectively, but increased in 1919 to the record figure of 15,852 tons. Comparing 1917 with 1918 or 1919 there was but little change in the value of the exports of steam vessels estimated at 1904 prices.

Wooden Manufactures..—Most of the increase in the imports of this group in 1919 was due to increased imports of furniture, which, after falling from a pre-war average of about 130,000 cwts. to 54,924 cwts. in 1917, and to 53,950 cwts. in 1918, rose to 102,289 cwts. in 1919. The exports of furniture which averaged about 45,000 cwts. in the five years prior to the war, fell to 29,791 cwts. in 1917, increased to 30,304 cwts. in 1918, and to 68,763 cwts. in 1919, the highest export recorded. The exports of wooden manufactures which only amounted to an average of about 5,000 cwts. in the five pre-war years, steadily increased during the war period, amounting to 129,652 cwts. in 1917 and to 324,978 cwts. in 1918, but falling again to 49,818 cwts. in 1919. These abnormal war figures were almost entirely due to the export of munition boxes, which were classified as wooden manufactures.

Paper, Stationery, etc.—The imports of paper, which in the years 1910 to 1914 amounted to an annual average of more than 800,000 cwts. fell to 496,848 cwts. in 1917, to 377,922 cwts. in 1918, but increased in 1919 to 555,579 cwts. The exports (including re-exports) which averaged 300,000 cwts. in the years 1909-13, fell to 189,155 cwts. in 1917, to 132,085 cwts. in 1918, but increased to 161,477 cwts. in 1919.

Bricks, Earthenware, etc.—The imports of glass and glassware which amounted in pre-war years to an annual average of 200,000 cwts. fell to 79,187 cwts. in 1917, to 72,723 cwts. in 1918, but increased to 117,034 cwts. in 1919. Imports of bottles in the years 1911-14 averaged 425,000 cwts., fell to 194,616 cwts. in 1917, to 165,410 cwts. in 1918, but increased to 215,238 cwts. in 1919. Imports of fireclay bricks declined from a pre-war average of 300,000 cwts. to 193,928 cwts. in 1917, increased to 252,652 cwts. in 1918, but fell to 146,346 cwts. in 1919.

Soap, Oils, etc.—Imports of starch decreased from a pre-war average of over 60,000 cwts. to 40,461 cwts. in 1917, to 24,446 cwts. in 1918, but increased to 40,825 cwts. in 1919; candles, from an average import of 75,000 cwts. in the five years 1909-13 fell to 63,602

cwts. in 1917, to 53,392 cwts. in 1918, but increased to 58,576 cwts. in 1919 ; matches fell from about 45,000 cwts in the same period to 25,166 cwts. in 1917 and to 1,413 cwts. in 1918, but increased to 34,561 cwts. in 1919 ; paraffin shale fell from a pre-war average of 40,000 cwts. to 27,132 cwts. in 1917, increasing to 29,958 cwts. in 1918, and to 43,071 cwts. in 1919 ; sizing which reached a maximum of 27,361 cwts. in 1913 fell to 18,282 cwts. in 1917, to 16,655 cwts. in 1918, but increased to 17,563 cwts, in 1919. The imports of motor spirit which steadily increased from 166,952 gallons in 1905 to 3,714,746 gallons in 1915, decreased to 2,949,102 gallons in 1917, but increased again to 3,433,752 gallons in 1918, and to 5,463,050 in 1919, a much greater figure than any previously recorded. The pre-war average import of about 17,000,000 gallons of petroleum and paraffin oil was maintained on much the same level up to 1918 but fell in 1919 to 13,820,512 gallons. The decrease in the exports of this group was due to the falling off in shipments of Industrial Spirit from 11,152,112 proof gallons in 1917 to 8,646,690 proof gallons in 1918, to 1,718,101 proof gallons in 1919. There was a corresponding increase in the exports of potable spirits, an increase which is not credited to the group of commodities dealt with at this stage.

Chemicals, Fertilizers, etc.—Imports of copper sulphate which averaged just over 3,000 tons in the years 1909-13 increased to 5,792 tons in 1917, fell slightly in 1918 to 5,682 tons, and in 1919 dropped to 2,688 tons. Imports of soda bicarbonate, which amounted to 63,215 cwts. in 1913, the highest pre-war figure recorded, increased to 108,420 cwts. in 1917, to 119,362 cwts. in 1918, but fell to 86,643 cwts. in 1919. The imports of basic slag which reached a pre-war maximum of 33,665 tons in 1909, rose to 46,191 tons in 1917, to 58,493 tons in 1918, but decreased to 48,772 tons in 1919 ; imports of soda nitrate increased from a pre-war average of about 5,000 tons to 13,223 tons, in 1917, the largest import recorded, but decreased to 8,284 tons in 1918 and to 2,177 tons in 1919 ; imports of sulphate of ammonia increased from a pre-war record of 4,289 tons in 1912 to 20,873 tons in 1917, to 25,224 tons in 1918, and to 34,027 tons in 1919 ; imports of superphosphate which reached a pre-war maximum of 28,575 tons, in 1913 fell to 3,067 tons in 1917, to 1,450 tons in 1918, but increased to 14,910 tons in 1919. Imports of phosphate rock, which decreased from a maximum of 116,587 tons in 1914, to 62,557 tons in 1917, increased to 106,578 tons in 1918, and fell again to 91,367 tons in 1919, a figure about equal to the pre-war average. Exports of alumina, which had steadily increased in pre-war years from 67,955 cwts in 1907, to 314,632 cwts in 1913, further increased to 389,747 cwts in 1917, but fell to 342,930 cwts. in 1918 and to 165,670 cwts in 1919. Exports of fertilizers, which amounted in pre-war years to an average of about 25,000 tons, fell to 17,178 tons in 1917, to 14,520 tons in 1918, and to 4,614 tons in 1919.

The foregoing analysis indicates briefly the extent and character of Irish trade. With regard to the question of the source or country of origin of the imports and the final destination of the exports as stated in previous Reports, the existing returns furnish little information. The trade which passes directly between Ireland and colonial and foreign countries is known, and the more important details as regards this trade at the chief ports in Ireland are presented annually by the Customs and Excise Department in their Statement of the Trade of the United Kingdom. The direct imports of foreign and colonial goods into Ireland during 1919 amounted to a value of £26,341,725, whereas the direct exports amounted to only £1,936,710. But as regards the indirect colonial and foreign trade of Ireland which passes to and from the Irish ports *via* Great Britain, there are at present no means of distinguishing this from the colonial and foreign trade of Great Britain. Consequently the total trade of Ireland with countries outside of Great Britain cannot at present be ascertained.

The imports into Ireland per head of population according to the present returns, amount to £36 4*s.* 8*d.*, and the exports per head to £40 3*s.* 9*d.*; or if the estimated value of re-exports is excluded, the imports amount to a value of £35 4*s.* 4*d.* per head of population, and the exports to £39 3*s.* 5*d.* per head.

It is of interest to compare the value of the import and export trade per head of population of other countries with that of Ireland, and the following table shows the values for the year 1919 or atest year for which figures for all the countries are available :—

Country.	Population		Trade.				
	Date of Estimate	Estimated Population	Year	Total Imports for Home Consumption	Total Exports of Domestic Produce.	Imports per head of Population.	Exports per head of Population.
				1,000 £'s.	1,000 £'s.	£ s. d.	£ s. d.
France	1918	36,500,000	1919	1,191,141	348,527	32 12 8	9 10 11

* Excluding re-exports estimated at £4,461,000.

As has been pointed out in former reports, these figures indicate the wide difference which there is in the extent of foreign trade of different countries as measured per head of population. In some States, especially those of wide area and varied climatic conditions, the extent of foreign trade in proportion to the total production of the country is small. In all such cases increase or decrease in imports or exports is a very subordinate factor in the industrial progress of the country, and the growth of wealth depends chiefly on internal development and internal trade, and not on the exchange of commodities with other nations. The larger the foreign or external trade of a country is in proportion to its internal trade, the greater is the importance of having as full and accurate as possible a record of this external or foreign trade. It is accordingly of the greatest importance to have as full and reliable a record as possible of the external trade of Ireland, but as has been repeatedly pointed out in previous Reports, the present records of this trade are far from being as accurate and as detailed as is desirable.

In conclusion, I desire to acknowledge the assistance given, by the Harbour Authorities of Ireland, the Railway and Shipping Companies, and by many individual importers and exporters, in furnishing information for this Report. I am also specially indebted to the Principal of the Statistical Office of the Customs and Excise Department for information which he has kindly furnished.

I am, Sir

Your obedient servant,

JOHN HOOPER,

Superintendent of Statistics and Intelligence Branch.

DEPARTMENT OF AGRICULTURE AND

TECHNICAL INSTRUCTION FOR IRELAND.

DUBLIN, 21*st December*, 1920.

TABLES.

IMPORTS.

TABLE I.—A Summary of the IMPORTS into Ireland during each of the years 1915 to 1919.

—	1915.	1916.	1917.	1918.	1919.
	£	£	£	£	£
I. Farm Produce, Food and Drink Stuffs—					
(*a.*) Live Stock	439,427	517,555	446,020	299,632	442,711
